

Fasteners

Heavy-Duty

- Each inch of product holds up to 2 lbs do not hang objects over 8 lbs.
- Audible snap indicates closure
- Great for moving or vibrating surfaces
- For indoor and outdoor use

Instructions:

Clean mounting surface. Remove liner on one side and apply fastener to item. Remove liner on second side. Press item against mounting surface. Press each piece firmly together. Audible snap indicates closure.

Fasteners can be used on most painted, varnished or otherwise sealed surfaces: brick, wood, metal or concrete. Fasteners can also be used on bare metal, glass and many plastics. Not recommended for drywall.

Note: Continued exposure to sunlight can damage fastener.

*Based on ASTM D3645 Procedure D on various surfaces.
