

Restickable

Tabs For Mounting

Reusable & Removable*

- Double-sided adhesive tab for mounting and securing objects
- Great for hanging and securing artwork, photos, lists, knick knacks, cards and other lightweight items
- Use on most flat surfaces, including stainless steel, plastic, concrete, glass, wood, painted walls.. and more

Steps:

- Peel off tab from clear bottom liner and apply a tab to each corner of the object's backside.
- Remove top liner and press firmly against wall/horizontal surface. Use one tab for each 113 g (0.25 lb) of weight, not to exceed 453 g (1 lb)
- To remove, peel item very slowly from wall/horizontal surface. Do not pull item straight out. Then, peel tab from surface very slowly. For rigid, non-paper objects, twist the object from the adhesive tab during removal. Reuse again and again!
- With repetitive use or exposure to dust particles, tab may lose stickiness. Gently wash with soapy water, rinse and air dry to refresh stickiness.

*Note: Removable adhesive may stick aggressively to some surfaces. Not recommended for use on wallpaper, delicate surfaces or walls painted with flat paint. May damage some substrates upon removal.
