

Indications & Materials*

- Metal/Metal based
- Glass Ceramics (e.g. e.max, VITA Mark II, IPS Empress 2)
(e.g. Lava™ Plus, Brux Zi, Procera)
- Oxide Ceramics
- Resin Composites
- Resin Nano Ceramics
(e.g. Lava™ Ultimate CAD/CAM Restorative)

See respective instructions for use for full list of indications.

RelyX™ Temp NE/E

The Temporary Cement

- Available in both eugenol and non-eugenol formulation
- Easy removal of provisional
- Quick, easy excess removal
- Reliable, temporary adhesion

- Tack light-cure feature for "clean-up on demand"
- Easy to use automatic delivery
- Sustained fluoride release
- Virtually no post-operative sensitivity

The PFM and Pediatric Crown Cement

Ketac™ Cem Plus

- No pre-treatment or primers required
- Fluoride release
- Good marginal seal

The PFM and Pediatric Crown Cement

Ketac™ Cem

- Saves time by eliminating etching, priming and bonding steps
- Virtually no post-operative sensitivity
- Strong and moisture-tolerant
- Endo tips make cementing posts easier and more reliable
- The world's most clinically proven self-adhesive resin cement

The Universal Cement

RelyX™ Unicem/RelyX™ Unicem 2

- Customer-preferred shading system
- Extremely colour stable
- Matching try-in pastes
- Light-cure formula
- Easy handling and clean-up

The Veneer Cement

RelyX™ Veneer

- Industry-leading bond strength
- Fast and easy procedure with only two components and few working steps
- Total etch, self-etch or selective etch with just one adhesive
- World-class aesthetics with natural fluorescence

The CAD/CAM and Glass Ceramic Cement

RelyX™ Ultimate
