3M™ Scotchcal™ High Tack Graphic Film IJ39-20

Film IJ39 High tack that *Grips* the Challenge

This matte vinyl film provides the quality needed for short-term promotional applications requiring stronger adhesion.

High Tack for Hard-to-Stick Surfaces

The high-tack, pressure-sensitive adhesive grips low-VOC (Volatile Organic Compound) paints, powder-coated paints, and low-surface energy plastics like polyethylene and polypropylene.

Versatile Film with Permanent Adhesive

This versatile film is designed for solvent, UV and latex-based inkjet printing, as well as screen printing. Use it for promotional graphic applications from short- to medium-term, indoor or outdoor, and flat or simple curves.

Quality and Consistency – Value Priced

We combined 3M durability and dependability with affordability to expand the graphic opportunities; five-year expected performance life.

NOTE: Use with 3M™ Scotchcal™ Gloss Overlaminate 8512G for abrasion resistance.
