

Clean & Effective

for a safer workplace

3M™ Clean-Walk™ Mats are a multi-sheeted adhesive system that captures dirt on contact from shoe soles, wheels and other passing objects. The top sheet easily peels away when soiled, instantly exposing a fresh, ready-to-use adhesive sheet.

This mat system is suitable for every environment - from office, manufacturing, laboratory to warehouse.

They are also ideal for Clean Room environments as they contain antimicrobial properties that inhibit fungal growth in the mat.

They protect and preserve the appearance and life of hard floor surfaces and carpets by reducing dirt passed between high-traffic office and production areas. The mats hold dirt securely to prevent residue transfer.

They come tabbed with numbered sheets for easy removal of one sheet at a time.

Product features

- Clean-Walk™ mats reduce dirt passed between areas.
- Large adhesive surface holds dirt securely to prevent residue transfer – long enough for two strides / steps.
- Protects, preserves and prolongs the life of floor surfaces and carpets.
- Individually numbered sheets are easy to remove, clearly showing remaining applications.
- Low profile construction reduces the risk of tripping and allows free movement of foot or wheel traffic.
- May assist with ISO14644-1 Certification for class 8-4 clean rooms.

Industry applications

Clean-Walk™ mats improve facility maintenance in a variety of industries including: Fabricated Metal shops, Machinery and Electronic Equipment operations, Printing and Publishing facilities, Vehicle Paint shops, Construction and Remodeling projects, Health-care facilities and Commercial buildings.

They are also ideal for clean room applications in:

- Computer, Semi-conductor, Electronics industries
- Nuclear industry
- Laboratories
- Hospitals
- Pharmaceutical Manufacturing

Product attributes

5830 - Unframed, with adhesive backing

These mats provide long-lasting performance on concrete and most smooth surfaces. Features include:

- 1.2 mm sheets mounted to a thin 2.0 mm flexible polyethylene film base.
- Base backed with acrylic adhesive that adheres to most smooth floor surfaces.
- Contains antimicrobial properties that inhibit fungal growth in the mat.

5840 - Framed, with non-skid backing

The non-skid polystyrene backing on our framed mats makes them ideal for carpeted surfaces.

- 1.2 mm sheets are attached to 2.0 mm hard plastic base.
- Mat is completely portable for use throughout your facility.
- Contains antimicrobial properties that inhibit fungal growth in the mat.

Unframed, with adhesive backing - 5830 for hard floor surfaces
