3M™ Light-To-Heat Conversion Release Coating (LTHC) Ink

Product Description
3M™ Light-To-Heat-Conversion Release Coating (LTHC) ink is a solvent based coating applied using a spin coating method. This coating forms the light to heat conversion layer on a glass substrate for 3M™ Wafer Support System.

Features and Benefits
- Enables stress free, room temperature debonding of adhesive to glass carrier interface with laser irradiation
- Compatible with typical semiconductor chemistries and processes

Typical Properties
Note: The following technical information and data should be considered representative or typical only and should not be used for specification purposes.

| Solvent:           | 1-Methoxy-2-propyl acetate  
                      | 2-Butoxy Ethanol         |
| Flash Point:       | 45°C                    |

General Information
Standard container is 20L Stainless steel drum (UN: 1A1/X/250).

Storage
Store this product under normal conditions of 5°C to 35°C in original container for maximum storage life.

Shelf Life
Six months after the date of shipping from 3M.

Method of Usage
- Product must be stirred/mixed at 600-700 RPM for 12 hours before usage.
- Product must be stirred continuously while in use.
Regulatory
For regulatory information about this product, contact your 3M representative.

Safety Data Sheet
Consult product Safety Data Sheet prior to use.

Technical Information
The technical information, recommendations and other statements contained in this document are based upon tests or experience that 3M believes are reliable, but the accuracy or completeness of such information is not guaranteed.

Product Use
Many factors beyond 3M’s control and uniquely within user’s knowledge and control can affect the use and performance of a 3M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user is solely responsible for evaluating the 3M product and determining whether it is fit for a particular purpose and suitable for user’s method of application.

Warranty, Limited Remedy, and Disclaimer
Unless an additional warranty is specifically stated on the applicable 3M product packaging or product literature, 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. If the 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M’s option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability
Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
