

3M™ HIE6 Protective Eyewear Integrated Eye Protection for Hard Hats

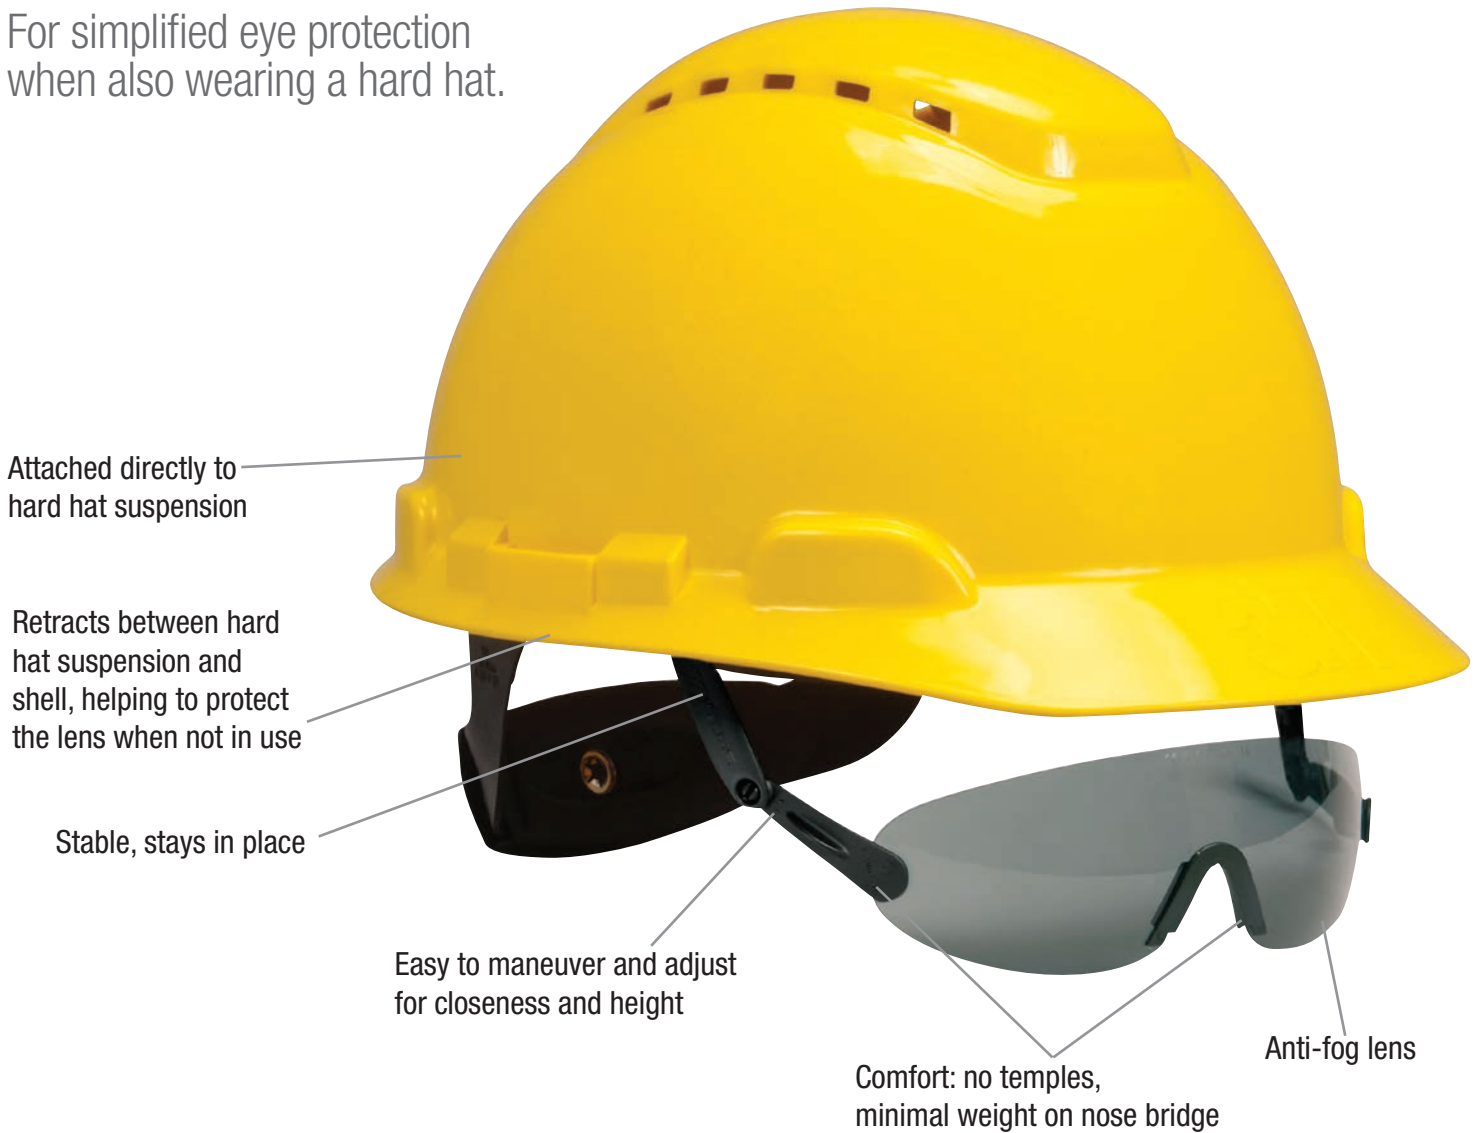

Integrated Comfort Tough Performance

At 3M, we know that needing to wear multiple pieces of personal protective equipment can be cumbersome and uncomfortable for workers. The new HIE6 Protective Eyewear is integrated directly into the suspension of the H-700 and H-800 Series of hard hats, nearly eliminating the weight of the eyewear on the nose and temples. This stable form of eyewear is easy to adjust and retracts neatly between the hard hat shell and suspension when not in use. An anti-fog coating helps prevent moisture from building up on the lens. For simplified eye protection when also wearing a hard hat, consider the HIE6 Integrated Protective Eyewear from 3M.

3M™ HIE6 Protective Eyewear

For simplified eye protection when also wearing a hard hat.
