3M™ Envision™ Flexible Substrate FS-1

Illuminate the Possibilities

with the Flexible Substrate Optimized for use with LEDs

LEDs HAVE MET THEIR MATCH.

Introducing 3M™ Envision™ Flexible Substrate FS-1, the flexible substrate optimized for use with LEDs.

Get More and Go Green

3M™ Envision™ Flexible Substrate FS-1 is nearly twice as transmissive*. This means more efficient use of LEDs and energy. So now you can build signs that use less energy and require less maintenance. Go greener without sacrificing performance.

Increased Design Versatility

When using 3M™ Envision™ Flexible Substrate FS-1, you have the option of decorating with cut vinyl or direct printing with solvent, UV or latex inks.

Other Benefits

- Seamless, wide-width flexible substrate
- Backed by the industry-leading 3M™ MCS™ Warranty
- Use with other LED-enabling products in the 3M Envision line of products for illuminated signs:
 - 3M™ Envision™ Translucent Film Series 3730
- Use with 3M™ Scotchcal™ Gloss Overlamine 3658G or Matte Overlamine 3660M, which offer up to nine years of outdoor durability.

Put LED Illuminated Signs in their Best Light
