

Aqua-Pure[®]
WATER FILTERS

Introducing the New
AP9000+
range of water filters

Cleaner
Clearer
Better Tasting Water

'Smart' Indicator

Built in LED indicator that changes from blue to red when it's time to change filters

I.M.P.A.C.T. 4-in-1

Aqua-Pure's new filter technology is a high capacity carbon block with a pleated pharmaceutical quality 0.2 micron membrane

WaterMark Certified

Industry tested and proven to ensure consistent trust and peace of mind

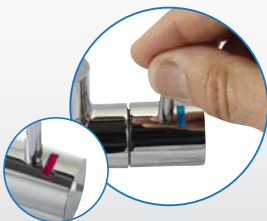

3M

Introducing the New AP9000+ range of water filters

FILTER WITH DEDICATED TAP

- Interchangeable spouts
- 'Smart' LED indicator light
- 4-in-1 filtration protection
- 0.2 micron pharmaceutical quality filter

Change cartridge and battery when the indicator light turns red

FILTER FOR EXISTING MIXER TAP

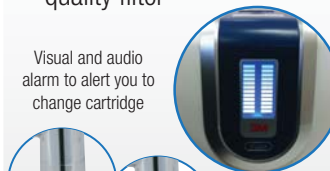

- Connects to existing tap
- No drilling required
- 4-in-1 filtration protection
- 0.2 micron pharmaceutical quality filter

Filters all cold water to the main mixer tap

TWIN FILTERS WITH DEDICATED TAP

- Interchangeable spouts
- 'Smart' LED indicator light
- 5-in-1 filtration protection
- 0.2 micron pharmaceutical quality filter

Visual and audio alarm to alert you to change cartridge

Change cartridge and battery when the indicator light turns red

FILTER WITH ALL-IN-ONE MIXER TAP

- All-in-one mixer tap
- 'Smart' LED indicator light
- 4-in-1 filtration protection
- 0.2 micron pharmaceutical quality filter

Change cartridge and battery when the indicator light turns red

The revolutionary **I.M.P.A.C.T.** Integrated Membrane Pre-Activated Carbon Technology (I.M.P.A.C.T.) can accomplish what was previously the job of a three- or four- cartridge systems. The integrated membrane provides superior sediment holding capabilities while reducing Cryptosporidium and Giardia Cysts and over 99.99% of all water-borne bacteria. The poly carbon block releases virtually no carbon fines. Pre-activation of the carbon media is not required.
