

## Safety Data Sheet

Copyright,2024, 3M Company. All rights reserved. Copying and/or downloading of this information for the purpose of properly utilizing 3M products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from 3M, and (2) neither the copy nor the original is resold or otherwise distributed with the intention of earning a profit thereon.

This Safety Data Sheet has been prepared in accordance with the SS586 Specification for Hazard Communication for Hazardous Chemicals and Dangerous Goods.

|                        |            |                         |            |
|------------------------|------------|-------------------------|------------|
| <b>Document group:</b> | 40-1132-6  | <b>Version number:</b>  | 3.00       |
| <b>Issue Date:</b>     | 30/08/2024 | <b>Supersedes date:</b> | 25/03/2024 |

### SECTION 1: Identification

#### 1.1. Product identifier

Super 77(TM) Multipurpose Adhesive (Aerosol)

#### 1.2. Recommended use and restrictions on use

##### Recommended use

Adhesive aerosol.

#### 1.3. Supplier's details

**Address:** 3M Technologies (S) Pte Ltd,10 Ang Mo Kio Street 65, Singapore 569059  
**Telephone:** +65 6450 8888  
**Website:** www.3m.com.sg

#### 1.4. Emergency telephone number

+65 6591 6601 (8.15am - 5.00pm, Monday - Friday)

### SECTION 2: Hazard identification

#### 2.1. Classification of the substance or mixture

Aerosol: Category 1.

Serious Eye Damage/Irritation: Category 2.

Specific Target Organ Toxicity (single exposure): Category 1.

Specific Target Organ Toxicity (single exposure): Category 3.

#### 2.2. Label elements

##### SIGNAL WORD

DANGER!

##### Symbols

Flame |Exclamation mark |Health Hazard |

##### Pictograms

**HAZARD STATEMENTS**

H222 Extremely flammable aerosol.  
 H229 Pressurized container: may burst if heated.

H319 Causes serious eye irritation.  
 H336 May cause drowsiness or dizziness.

H370 Causes damage to organs: cardiovascular system.

**PRECAUTIONARY STATEMENTS**

**Prevention:**

P211 Do not spray on an open flame or other ignition source.  
 P251 Do not pierce or burn, even after use.  
 P260 Do not breathe dust/fume/gas/mist/vapours/spray.

**Response:**

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 P308 + P311 IF exposed or concerned: Call a POISON CENTER or doctor/physician.

**Storage:**

P410 + P412 Protect from sunlight. Do not expose to temperatures exceeding 50C/122F.

**2.3. Other hazards**

Aspiration classification does not apply as this product is sold in sealed, self-pressurized containers with nozzles designed to prevent formation of a stream during usage. May displace oxygen and cause rapid suffocation.

**SECTION 3: Composition/information on ingredients**

This material is a mixture.

| Ingredient                 | CAS Nbr      | % by Wt |
|----------------------------|--------------|---------|
| Acetone                    | 67-64-1      | 10 - 30 |
| Dimethyl ether             | 115-10-6     | 10 - 30 |
| Petroleum gases, liquefied | 68476-85-7   | 10 - 30 |
| Cyclohexane                | 110-82-7     | 10 - 20 |
| 2-Methylpentane            | 107-83-5     | 10 - 20 |
| Non-volatile ingredients   | Trade Secret | 1 - 10  |
| Rosin ester                | Trade Secret | 1 - 10  |
| Terpene Phenolic           | Trade Secret | < 5     |
| Petroleum Resins           | 64742-16-1   | < 5     |
| Phenol-alpha-pinene resin  | 25359-84-6   | < 2     |
| Pentane                    | 109-66-0     | < 2     |
| Ethanol                    | 64-17-5      | < 2     |
| n-Hexane                   | 110-54-3     | < 1     |
| Toluene                    | 108-88-3     | < 0.3   |

**SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

##### Inhalation

Remove person to fresh air. Get medical attention.

##### Skin contact

Wash with soap and water. If signs/symptoms develop, get medical attention.

##### Eye contact

Immediately flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. Get medical attention.

##### If swallowed

Rinse mouth. If you feel unwell, get medical attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

Central nervous system depression (headache, dizziness, drowsiness, incoordination, nausea, slurred speech, giddiness, and unconsciousness). Target organ effects. See Section 11 for additional details.

#### 4.3. Indication of any immediate medical attention and special treatment required

Exposure may increase myocardial irritability. Do not administer sympathomimetic drugs unless absolutely necessary.

## SECTION 5: Fire-fighting measures

#### 5.1. Suitable extinguishing media

Use a fire fighting agent suitable for the surrounding fire.

#### 5.2. Special hazards arising from the substance or mixture

Closed containers exposed to heat from fire may build pressure and explode.

#### Hazardous Decomposition or By-Products

| <u>Substance</u>           | <u>Condition</u>   |
|----------------------------|--------------------|
| Aldehydes.                 | During combustion. |
| Carbon monoxide.           | During combustion. |
| Carbon dioxide.            | During combustion. |
| Irritant vapours or gases. | During combustion. |

#### 5.3. Special protective actions for fire-fighters

Water may not effectively extinguish fire; however, it should be used to keep fire-exposed containers and surfaces cool and prevent explosive rupture.

## SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Warning! A motor could be an ignition source and could cause flammable gases or vapors in the spill area to burn or explode. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

#### 6.2. Environmental precautions

For larger spills, cover drains and build dykes to prevent entry into sewer systems or bodies of water.

#### 6.3. Methods and material for containment and cleaning up

If possible, seal leaking container. Place leaking containers in a well-ventilated area, preferably an operating exhaust hood, or if necessary outdoors on an impermeable surface until appropriate packaging for the leaking container or its contents is

available. Contain spill. Cover spill area with a fire-extinguishing foam. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a metal container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

## **SECTION 7: Handling and storage**

### **7.1. Precautions for safe handling**

Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Use personal protective equipment (eg. gloves, respirators...) as required.

### **7.2. Conditions for safe storage including any incompatibilities**

Store in a well-ventilated place. Keep container tightly closed. Protect from sunlight. Do not expose to temperatures exceeding 50C/122F. Store away from heat. Store away from acids. Store away from oxidising agents.

## **SECTION 8: Exposure controls/personal protection**

### **8.1 Control parameters**

#### **Occupational exposure limits**

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| <b>Ingredient</b>                    | <b>CAS Nbr</b> | <b>Agency</b>  | <b>Limit type</b>  | <b>Additional comments</b>                  |
|--------------------------------------|----------------|----------------|--|---|
| 2-Methylpentane                      | 107-83-5       | ACGIH          | TWA:200 ppm  | A3: Confirmed animal carcin.                |
| HEXANE (ISOMERS OTHER THAN N-HEXANE) | 107-83-5       | Singapore PELs | TWA(8 hours):1760 mg/m3(500 ppm);STEL(15 minutes):3500 mg/m3(1000 ppm) |   |
| Toluene                              | 108-88-3       | ACGIH          | TWA:20 ppm   | A4: Not class. as human carcin, Ototoxicant |
| Toluene                              | 108-88-3       | Singapore PELs | TWA(8 hours):188 mg/m3(50 ppm)   |   |
| Pentane                              | 109-66-0       | ACGIH          | TWA:1000 ppm   |   |
| Pentane                              | 109-66-0       | Singapore PELs | TWA(8 hours):1770 mg/m3(600 ppm);STEL(15 minutes):2210 mg/m3(750 ppm)  |   |
| n-Hexane                             | 110-54-3       | ACGIH          | TWA:50 ppm   | Danger of cutaneous absorption              |
| n-Hexane                             | 110-54-3       | Singapore PELs | TWA(8 hours):176 mg/m3(50 ppm)   |   |
| Cyclohexane                          | 110-82-7       | ACGIH          | TWA:100 ppm  |   |
| Cyclohexane                          | 110-82-7       | Singapore PELs | TWA(8 hours):1030 mg/m3(300 ppm)                                       |   |
| Dimethyl ether                       | 115-10-6       | AIHA           | TWA:1880 mg/m3(1000 ppm)   |   |
| Ethanol                              | 64-17-5        | ACGIH          | STEL:1000 ppm  | A3: Confirmed animal                        |

Singapore PELs : Singapore. Workplace Safety and Health (Permissible Exposure Levels of Toxic Substances) Order

TWA: Time-Weighted-Average

STEL: Short Term Exposure Limit

CEIL: Ceiling

## 8.2. Exposure controls

### 8.2.1. Engineering controls

Do not remain in area where available oxygen may be reduced. Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment.

### 8.2.2. Personal protective equipment (PPE)

#### Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Indirect vented goggles.

#### Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing. Note: Nitrile gloves may be worn over polymer laminate gloves to improve dexterity.

Gloves made from the following material(s) are recommended: Polymer laminate

If this product is used in a manner that presents a higher potential for exposure (eg. spraying, high splash potential etc.), then use of protective coveralls may be necessary. Select and use body protection to prevent contact based on the results of an Apron - polymer laminate

#### Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapours and particulates

Half facepiece or full facepiece supplied-air respirator

Organic vapor cartridges may have short service life.

For questions about suitability for a specific application, consult with your respirator manufacturer.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|   |   |
|---|---|
| Physical state                                    | Liquid. aerosol   |
| Specific Physical Form:                           | Aerosol   |
| Color   | Colorless   |
| Odor  | Fruity Odor, Sweet Odor                                   |
| Odour threshold                                   | <i>No data available.</i>                                 |
| pH  | <i>No data available.</i>                                 |
| Melting point/Freezing point                      | <i>No data available.</i>                                 |
| Boiling point/Initial boiling point/Boiling range | <i>Not applicable.</i>                                    |
| Flash point                                       | -41.1 °C [ <i>Test Method: Tagliabue closed cup</i> ]     |
| Evaporation rate                                  | 1.9 [ <i>Ref Std: ETHER=1</i> ]                           |
| Flammability                                      | Flammable Aerosol: Category 1.                            |
| Flammable Limits(LEL)                             | <i>No data available.</i>                                 |
| Flammable Limits(UEL)                             | <i>No data available.</i>                                 |
| Vapour pressure                                   | [ <i>Details: Compressed gas</i> ] <i>Not applicable.</i> |
| Vapor Density and/or Relative Vapor Density       | 2.97 [ <i>Ref Std: AIR=1</i> ]                            |
| Density   | 0.726 g/ml  |
| Relative density                                  | 0.726 [ <i>Ref Std: WATER=1</i> ]                         |
| Water solubility                                  | Nil   |
| Solubility- non-water                             | <i>No data available.</i>                                 |
| Partition coefficient: n-octanol/water            | <i>No data available.</i>                                 |
| Autoignition temperature                          | <i>No data available.</i>                                 |
| Decomposition temperature                         | <i>Not applicable.</i>                                    |
| Kinematic Viscosity                               | <i>No data available.</i>                                 |
| VOC less H <sub>2</sub> O & exempt solvents       | ≤51 % [ <i>Test Method: calculated per CARB title 2</i> ] |
| Solids content                                    | ≥22.4 %   |

|--------------------------|------------------------|

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

### 10.2 Chemical stability

Stable.

### 10.3 Possibility of hazardous reactions

Hazardous polymerisation will not occur.

### 10.4 Conditions to avoid

Heat.

### 10.5 Incompatible materials

Strong oxidising agents.

## 10.6 Hazardous decomposition products

### Substance

None known.

### Condition

Refer to section 5.2 for hazardous decomposition products during combustion.

## SECTION 11: Toxicological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labelling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

### 11.1 Information on Toxicological effects

#### Signs and Symptoms of Exposure

**Based on test data and/or information on the components, this material may produce the following health effects:**

#### **Inhalation**

Simple asphyxiation: Signs/symptoms may include increased heart rate, rapid respirations, drowsiness, headache, incoordination, altered judgement, nausea, vomiting, lethargy, seizures, coma, and may be fatal. Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. May cause additional health effects (see below).

#### **Skin contact**

Mild Skin Irritation: Signs/symptoms may include localized redness, swelling, itching, and dryness.

#### **Eye contact**

Severe eye irritation: Signs/symptoms may include significant redness, swelling, pain, tearing, cloudy appearance of the cornea, and impaired vision.

#### **Ingestion**

Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea. May cause additional health effects (see below).

#### **Additional Health Effects:**

#### **Single exposure may cause target organ effects:**

Central nervous system (CNS) depression: Signs/symptoms may include headache, dizziness, drowsiness, incoordination, nausea, slowed reaction time, slurred speech, giddiness, and unconsciousness. Single exposure, above recommended guidelines, may cause: Cardiac Sensitization: Signs/symptoms may include irregular heartbeat (arrhythmia), faintness, chest pain, and may be fatal.

#### **Reproductive/Developmental Toxicity:**

Contains a chemical or chemicals which can cause birth defects or other reproductive harm.

#### **Additional information:**

This product contains ethanol. Alcoholic beverages and ethanol in alcoholic beverages have been classified by the International Agency for Research on Cancer as carcinogenic to humans. There are also data associating human consumption of alcoholic beverages with developmental toxicity and liver toxicity. Exposure to ethanol during the foreseeable use of this product is not expected to cause cancer, developmental toxicity, or liver toxicity.

**Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

**Acute Toxicity**

| Name                       | Route                      | Species                | Value  |
|----------------------------|----------------------------|------------------------|--|
| Overall product            | Dermal                     |                        | No data available; calculated ATE >5,000 mg/kg |
| Overall product            | Inhalation-Vapor(4 hr)     |                        | No data available; calculated ATE >50 mg/l     |
| Overall product            | Ingestion                  |                        | No data available; calculated ATE >5,000 mg/kg |
| Acetone                    | Dermal                     | Rabbit                 | LD50 > 15,688 mg/kg                            |

**Aspiration Hazard**

| Name            | Value             |
|-----------------|-------------------|
| 2-Methylpentane | Aspiration hazard |
| Cyclohexane     | Aspiration hazard |
| Pentane         | Aspiration hazard |
| Toluene         | Aspiration hazard |
| n-Hexane        | Aspiration hazard |

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

**SECTION 12: Ecological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. Additional information leading to material classification in Section 2 is available upon request. In addition, environmental fate and effects data on ingredients may not be reflected in this section because an ingredient is present below the threshold for labelling, an ingredient is not expected to be available for exposure, or the data is considered not relevant to the material as a whole.

**12.1. Toxicity**

**Acute aquatic hazard:**

GHS Acute 2: Toxic to aquatic life.

**Chronic aquatic hazard:**

Not chronically toxic to aquatic life by GHS criteria.

No product test data available.

**12.4. Mobility in soil**

Please contact manufacturer for more details

**12.5 Other adverse effects**

No information available.

**SECTION 13: Disposal considerations****13.1. Disposal methods**

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. Facility must be capable of handling aerosol cans.

**SECTION 14: Transport Information****International Regulations**

UN No.: UN1950

UN Proper shipping name: AEROSOLS

**Transportation Class (IMO):** 2.1-2.1 Flammable gases

**Transportation Class (IATA):** 2.1-2.1 Flammable gases

**Other Dangerous Goods Descriptions (IMO):** None assigned

**Other Dangerous Goods Descriptions (IATA):** None assigned

**Packing Group:** None assigned

**Marine pollutant:** None assigned

**SECTION 15: Regulatory information****15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture****Global inventory status**

Contact 3M for more information. The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Philippines RA 6969 requirements. Certain restrictions may apply. Contact the selling division for additional information. The components of this product are in compliance with the new substance notification requirements of CEPA. This product complies with Measures on Environmental Management of New Chemical Substances. All ingredients are listed on or exempt from on China IECSC inventory. The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

**This product may contain component(s) that are regulated by the following:**

Workplace Safety and Health Act & Workplace Safety and Health (General Provisions) Regulations: this product is subject to SDS, labelling, PEL and other requirements in the Act/Regulations.

Fire Safety (Petroleum and Flammable Materials) Regulations: This product is subject to the requirements in the Regulations

**SECTION 16: Other information**

DISCLAIMER: The information on this Safety Data Sheet is based on our experience and is correct to the best of our knowledge at the date of publication, but we do not accept any liability for any loss, damage or injury resulting from its use (except as required by law). The information may not be valid for any use not referred to in this Data Sheet or use of the

product in combination with other materials. For these reasons, it is important that customers carry out their own test to satisfy themselves as to the suitability of the product for their own intended applications.
