| Issue Date:     | 2022/03/30 | Supercedes Date: | 2020/10/29 |

## **SECTION 1: Identification**

### 1.1. Product identifier

Meguiar's® Quick Clean Car Care Kit, G55144C

#### **Product Identification Numbers**

14-1001-1553-5

## 1.2. Recommended use and restrictions on use

### 1.3. Supplier's details

**Company:** 3M Canada Company

Address: 1840 Oxford Street East, Post Office Box 5757, London, Ontario N6A 4T1

**Telephone:** (800) 364-3577

E Mail:

## 1.4. Emergency telephone number

Medical Emergency Telephone:1-800-3M HELPS / 1-800-364-3577; Transportation Emergency Telephone (CANUTEC): (613) 996-6666

This product is a kit or a multipart product which consists of multiple, independently packaged components. A Safety Data Sheet (SDS) or Article Information Sheet (AIS) for each of these components is included. Please do not separate the component documents from this cover page. The document numbers for components of this product are:

41-3305-4, 31-9700-1, 32-5975-1, 40-5416-9

Transport in accordance with applicable regulations.

The information in this Safety Data Sheet (SDS) is believed to be correct as of the date issued. The manufacturer MAKES NO WARRANTIES, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF PERFORMANCE, COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. User is responsible for determining whether the product is fit for a particular purpose and suitable for user's method of use or application. Given the variety of factors that can affect the use and application of a product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the product to determine whether it is fit for a particular purpose and suitable for user's method of use or application.

## Safety Data Sheet

Copyright,2020, Meguiar's (Canada) Inc. All rights reserved. Copying and/or downloading of this information for the purpose of properly utilizing Meguiar's (Canada) Inc. products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from Meguiar's (Canada) Inc., and (2) neither the copy nor the original is resold or otherwise distributed with the intention of earning a profit thereon.

**Document group:** 41-3305-4 **Version number:** 1.01

**Issue Date:** 2020/10/09 **Supercedes Date:** 2020/08/20

This Safety Data Sheet has been prepared in accordance with the Canadian Hazardous Products Regulations.

## **SECTION 1: Identification**

### 1.1. Product identifier

G96 (24-165B) Multi-Purpose Cleaner

#### 1.2. Recommended use and restrictions on use

#### Intended Use

Automotive

### Specific Use

All Purpose Cleaner

### Restrictions on use

Not applicable

### 1.3. Supplier's details

**Company:** Meguiar's Canada Inc.

**Division:** Meguiar's

Address: 1840 Oxford Street East, Post Office Box 5790, London, Ontario N6A 0A9

**Telephone:** (800) 364-3577

Website:

## 1.4. Emergency telephone number

Medical Emergency Telephone: 1-800-364-3577; Transportation Emergency Telephone (CANUTEC): (613) 996-6666

## **SECTION 2: Hazard identification**

## 2.1. Classification of the substance or mixture

Corrosive to metal: Category 1.

Serious Eye Damage/Irritation: Category 1. Skin Corrosion/Irritation: Category 1B.

Specific Target Organ Toxicity (single exposure): Category 3.

## 2.2. Label elements

Signal word

## G96 (24-165B) Multi-Purpose Cleaner

## Danger

## **Symbols**

Corrosion Exclamation mark

#### Hazard statements

May be corrosive to metals.

Causes severe skin burns and eye damage. May cause respiratory irritation.

## **Precautionary statements**

#### General:

Keep out of reach of children.

#### **Prevention:**

Keep only in original packaging. Do not breathe dust/fume/gas/mist/vapours/spray. Use only outdoors or in a well-ventilated area. Wear protective gloves, protective clothing, and eye/face protection. Wash exposed skin thoroughly after handling.

#### **Response:**

IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE or doctor/physician. Wash contaminated clothing before reuse. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Absorb spillage to prevent material damage.

### Storage:

Store in a corrosion resistant container with a resistant inner liner. Store in a well-ventilated place. Keep container tightly closed. Store locked up.

Dispose of contents/container in accordance with applicable local/regional/national/international regulations.

### 2.3. Other hazards

May cause chemical gastrointestinal burns.

## **SECTION 3: Composition/information on ingredients**

This material is a mixture.

| Ingredient          | C.A.S. No. | % by Wt              | Common Name                          |
|---------------------|------------|----------------------|--------------------------------------|
| Sodium Metasilicate | 6834-92-0  | 1 - 5 Trade Secret * | Silicic acid (H2SiO3), disodium salt |

<sup>\*</sup>The actual concentration of this ingredient has been withheld as a trade secret.

## **SECTION 4: First aid measures**

### 4.1. Description of first aid measures

## Inhalation:

Page: 2 of 9

### G96 (24-165B) Multi-Purpose Cleaner

Remove person to fresh air. If you feel unwell, get medical attention.

#### **Skin Contact:**

Immediately flush with large amounts of water for at least 15 minutes. Remove contaminated clothing. Get immediate medical attention. Wash clothing before reuse.

### **Eye Contact:**

Immediately flush with large amounts of water for at least 15 minutes. Remove contact lenses if easy to do. Continue rinsing. Immediately get medical attention.

#### If Swallowed:

Rinse mouth. Do not induce vomiting. Get immediate medical attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

See Section 11.1. Information on toxicological effects.

### 4.3. Indication of any immediate medical attention and special treatment required

Not applicable

## **SECTION 5: Fire-fighting measures**

### 5.1. Suitable extinguishing media

Material will not burn.

## 5.2. Special hazards arising from the substance or mixture

None inherent in this product.

### **Hazardous Decomposition or By-Products**

SubstanceConditionCarbon monoxideDuring CombustionCarbon dioxideDuring Combustion

### 5.3. Special protective actions for fire-fighters

Wear full protective equipment (Bunker Gear) and a self-contained breathing apparatus (SCBA).

## **SECTION 6: Accidental release measures**

## 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapours, in accordance with good industrial hygiene practice. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

## **6.2.** Environmental precautions

Avoid release to the environment. For larger spills, cover drains and build dikes to prevent entry into sewer systems or bodies of water.

#### 6.3. Methods and material for containment and cleaning up

Contain spill. For large spills, if necessary, get assistance from professional spill clean up team. For small spills, carefully neutralize spill by adding appropriate dilute acid such as vinegar. Work slowly to avoid boiling or spattering. Continue to add neutralizing agent until reaction stops. Let cool before collecting. Or use a commercially available caustic (alkaline or basic) spill clean-up kit. Follow kit directions exactly. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a metal container approved for use in transportation by appropriate authorities. The container must be lined with polyethylene plastic or contain a plastic drum liner made of polyethylene. Clean up residue with water. Cover, but do not seal for 48 hours. Dispose of collected material as soon as possible in accordance with

\_\_\_\_\_

applicable local/regional/national/international regulations.

## **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

Do not use in a confined area with minimal air exchange. Keep out of reach of children. Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Wash contaminated clothing before reuse. Avoid contact with oxidizing agents (eg. chlorine, chromic acid etc.) Keep away from reactive metals (eg. Aluminum, zinc etc.) to avoid the formation of hydrogen gas that could create an explosion hazard.

## 7.2. Conditions for safe storage including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep only in original container. Store in a corrosive resistant container with a resistant inner liner. Store away from acids. Store away from oxidizing agents.

## **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

## Occupational exposure limits

No occupational exposure limit values exist for any of the components listed in Section 3 of this SDS.

## 8.2. Exposure controls

## 8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment.

### 8.2.2. Personal protective equipment (PPE)

## Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Full Face Shield

Indirect Vented Goggles

## Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing. Note: Nitrile gloves may be worn over polymer laminate gloves to improve dexterity.

Gloves made from the following material(s) are recommended: Polymer laminate

If this product is used in a manner that presents a higher potential for exposure (eg. spraying, high splash potential etc.), then use of protective coveralls may be necessary. Select and use body protection to prevent contact based on the results of an exposure assessment. The following protective clothing material(s) are recommended: Apron - polymer laminate

### Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapours and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

# **SECTION 9: Physical and chemical properties**

## 9.1. Information on basic physical and chemical properties

| information on basic physical and chemical properties |                              |
|---|------------------------------|
| Physical state  | Liquid                       |
| Colour  | Light Yellow                 |

### **Nanoparticles**

This material does not contain nanoparticles.

# **SECTION 10: Stability and reactivity**

## 10.1. Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section.

## 10.2. Chemical stability

Stable.

## 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

## 10.4. Conditions to avoid

None known.

## 10.5. Incompatible materials

Strong acids

## G96 (24-165B) Multi-Purpose Cleaner

Strong oxidizing agents

## 10.6. Hazardous decomposition products

**Substance** 

Condition

None known.

Refer to section 5.2 for hazardous decomposition products during combustion.

## **SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

## 11.1. Information on Toxicological effects

## Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### Inhalation:

Respiratory Tract Irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

#### **Skin Contact:**

Corrosive (Skin Burns): Signs/symptoms may include localized redness, swelling, itching, intense pain, blistering, ulceration, and tissue destruction.

#### **Eve Contact:**

Corrosive (Eye Burns): Signs/symptoms may include cloudy appearance of the cornea, chemical burns, severe pain, tearing, ulcerations, significantly impaired vision or complete loss of vision.

#### **Ingestion:**

Gastrointestinal Corrosion: Signs/symptoms may include severe mouth, throat and abdominal pain; nausea; vomiting; and diarrhea; blood in the feces and/or vomitus may also be seen.

#### **Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

## **Acute Toxicity**

| Name                | Route     | Species | Value  |
|---------------------|-----------|---------|--|
| Overall product     | Ingestion |         | No data available; calculated ATE >5,000 mg/kg |
| Sodium Metasilicate | Dermal    | Rabbit  | LD50 > 4,640 mg/kg                             |
| Sodium Metasilicate | Ingestion | Rat     | LD50 500 mg/kg                                 |

ATE = acute toxicity estimate

### Skin Corrosion/Irritation

| Name                | Species | Value     |
|---------------------|---------|-----------|
| Sodium Metasilicate | Rabbit  | Corrosive |

## Serious Eye Damage/Irritation

## G96 (24-165B) Multi-Purpose Cleaner

| Name                | Species | Value     |
|---------------------|---------|-----------|
| Sodium Metasilicate | Rabbit  | Corrosive |

### **Skin Sensitization**

| Name                | Species | Value          |
|---------------------|---------|----------------|
| Sodium Metasilicate | Mouse   | Not classified |

## **Respiratory Sensitization**

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Germ Cell Mutagenicity** 

| Name                | Route    | Value         |
|---------------------|----------|---------------|
| Sodium Metasilicate | In Vitro | Not mutagenic |
| Sodium Metasilicate | In vivo  | Not mutagenic |

## Carcinogenicity

For the component/components, either no data are currently available or the data are not sufficient for classification.

## Reproductive Toxicity

Reproductive and/or Developmental Effects

| Reproductive und/or Developmental Effects |           |                                |         |             |           |  |  |
|---|-----------|--------------------------------|---------|-------------|-----------|--|--|
| Name                                      | Route     | Value                          | Species | Test result | Exposure  |  |  |
|   |           |                                |         |             | Duration  |  |  |
| Sodium Metasilicate                       | Ingestion | Not classified for development | Mouse   | NOAEL 200   | during    |  |  |
|   |           |                                |         | mg/kg/day   | gestation |  |  |

## Target Organ(s)

Specific Target Organ Toxicity - single exposure

| Name                | Route      | Target Organ(s)        | Value                            | Species                        | Test result         | Exposure<br>Duration |
|---------------------|------------|------------------------|----------------------------------|--------------------------------|---------------------|----------------------|
| Sodium Metasilicate | Inhalation | respiratory irritation | May cause respiratory irritation | official<br>classifica<br>tion | NOAEL Not available |                      |

Specific Target Organ Toxicity - repeated exposure

| Name                | Route     | Target Organ(s)             | Value  | Species | Test result                 | Exposure<br>Duration |
|---------------------|-----------|-----------------------------|--|---------|-----------------------------|----------------------|

| Sodium Metasilicate | Ingestion | heart   liver               | Not classified   | Rat     | NOAEL<br>1,259<br>mg/kg/day | 8 weeks              |

### **Aspiration Hazard**

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

## **SECTION 12: Ecological information**

No data available.

## **SECTION 13: Disposal considerations**

## 13.1. Disposal methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

## **SECTION 14: Transport Information**

Please contact the emergency numbers listed on the first page of the SDS for Transportation Information for this material.

## **SECTION 15: Regulatory information**

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Global inventory status

All applicable chemical ingredients in this material are listed on the European Inventory of Existing Chemical Substances (EINECS), or are exempt polymers whose monomers are listed on EINECS. Contact manufacturer for more information The components of this material are in compliance with the provisions of the Korea Chemical Control Act. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Japan Chemical Substance Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Philippines RA 6969 requirements. Certain restrictions may apply. Contact the selling division for additional information. The components of this product are in compliance with the new substance notification requirements of CEPA. This product complies with Measures on Environmental Management of New Chemical Substances. All ingredients are listed on or exempt from on China IECSC inventory. The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

## **SECTION 16: Other information**

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in

Health: 3 Flammability: 0 Instability: 0 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

Copying and/or downloading of this information for the purpose of properly utilizing Meguiar's (Canada) Inc. products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from Meguiar's (Canada) Inc., and (2) neither the copy nor the original is resold or otherwise distributed with the intention of earning a profit thereon.

**Document group:** 40-5416-9 1.02 Version number: **Issue Date:** 2022/03/30 **Supercedes Date:** 

2020/10/13

This Safety Data Sheet has been prepared in accordance with the Canadian Hazardous Products Regulations.

## **SECTION 1: Identification**

## 1.1. Product identifier

Quik Interior Detailer Wipes G13600 [G13600]

### **Product Identification Numbers**

LB-1100-2738-4 14-1000-0566-0 14-1000-0568-6 14-1001-1728-3

### 1.2. Recommended use and restrictions on use

#### **Intended Use**

Automotive

### Restrictions on use

Not applicable

## 1.3. Supplier's details

Company: Meguiar's Canada Inc.

Division: Meguiar's

Address: 1840 Oxford Street East, Post Office Box 5790, London, Ontario N6A 0A9

**Telephone:** (800) 364-3577

Website:

## 1.4. Emergency telephone number

Medical Emergency Telephone:1-800-364-3577; Transportation Emergency Telephone (CANUTEC): (613) 996-6666

## **SECTION 2: Hazard identification**

#### 2.1. Classification of the substance or mixture

Not classified according to the Canadian Hazardous Products Regulation.

#### 2.2. Label elements

### Signal word

Not applicable.

**Symbols** 

## Quik Interior Detailer Wipes G13600 [G13600]

Not applicable.

## **Pictograms**

Not applicable.

#### 2.3. Other hazards

None known.

## **SECTION 3: Composition/information on ingredients**

This material is a mixture.

| Ingredient           | C.A.S. No. | % by Wt  | Common Name                             |
|----------------------|------------|----------|---|
| Conditioners         | Mixture    | 80 - 100 | Not Applicable                          |
| 5-chloro-2-methyl-4- | 26172-55-4 | < 0.0015 | 3(2H)-Isothiazolone, 5-chloro-2-methyl- |
| isothiazoline-3-one  |            |          |   |

Conditioners is a non-hazardous Trade Secret material according to WHMIS criteria.

## **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

No need for first aid is anticipated.

#### **Skin Contact:**

No need for first aid is anticipated.

### **Eye Contact:**

Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

### If Swallowed:

No need for first aid is anticipated.

### 4.2. Most important symptoms and effects, both acute and delayed

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

#### 4.3. Indication of any immediate medical attention and special treatment required

Not applicable

# **SECTION 5: Fire-fighting measures**

## 5.1. Suitable extinguishing media

Material will not burn.

## 5.2. Special hazards arising from the substance or mixture

None inherent in this product.

## **Hazardous Decomposition or By-Products**

**Substance** Carbon monoxide Carbon dioxide

Irritant Vapours or Gases

## Condition

**During Combustion During Combustion During Combustion** 

Page: 2 of 8

### 5.3. Special protective actions for fire-fighters

Wear full protective equipment (Bunker Gear) and a self-contained breathing apparatus (SCBA).

## **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapours, in accordance with good industrial hygiene practice. Observe precautions from other sections.

## 6.2. Environmental precautions

Avoid release to the environment. For larger spills, cover drains and build dikes to prevent entry into sewer systems or bodies of water.

### 6.3. Methods and material for containment and cleaning up

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with water. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

## **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

Keep out of reach of children. Avoid release to the environment. Avoid contact with oxidizing agents (eg. chlorine, chromic acid etc.)

### 7.2. Conditions for safe storage including any incompatibilities

Protect from sunlight. Store away from acids. Store away from oxidizing agents.

## **SECTION 8: Exposure controls/personal protection**

## 8.1. Control parameters

### Occupational exposure limits

No occupational exposure limit values exist for any of the components listed in Section 3 of this SDS.

## 8.2. Exposure controls

### 8.2.1. Engineering controls

Not applicable.

### 8.2.2. Personal protective equipment (PPE)

## Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Safety Glasses with side shields

## Skin/hand protection

No chemical protective gloves are required.

### Respiratory protection

None required.

## **SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and chemical properties

| information on basic physical and chemical properties | · · · · · · · · · · · · · · · · · · ·                   |
|---|---|
| Physical state  | Liquid  |
| Colour  | White   |
| Odour   | Slight Floral   |
| Odour threshold                                       | No Data Available                                       |
| pH  | 5.8 - 8.8   |
| Melting point/Freezing point                          | Not Applicable  |
| Boiling point   | 100 °C  |
| Flash Point   | No flash point  |
| Evaporation rate                                      | No Data Available                                       |
| Flammability (solid, gas)                             | Not Applicable  |

| Partition coefficient: n-octanol/ water               | No Data Available                                       |
| Autoignition temperature                              | Not Applicable  |
| Decomposition temperature                             | No Data Available                                       |
| Viscosity/Kinematic Viscosity                         | No Data Available                                       |
| Volatile Organic Compounds                            | 0.4 % weight [Test Method: calculated per CARB title 2] |
| Percent volatile                                      | 99.6 % weight [Test Method: Estimated]                  |
| VOC Less H2O & Exempt Solvents                        | 3.6 g/l [Test Method:calculated SCAQMD rule 443.1]      |
| Molecular weight                                      | No Data Available                                       |
|   |   |

## Nanoparticles

This material does not contain nanoparticles.

## **SECTION 10: Stability and reactivity**

## 10.1. Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section.

## 10.2. Chemical stability

Stable.

## 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

## 10.4. Conditions to avoid

Not determined

## 10.5. Incompatible materials

Strong acids

Strong oxidizing agents

## 10.6. Hazardous decomposition products

**Condition Substance** 

## Quik Interior Detailer Wipes G13600 [G13600]

None known.

Refer to section 5.2 for hazardous decomposition products during combustion.

## **SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

### 11.1. Information on Toxicological effects

Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### Inhalation:

No known health effects.

#### **Skin Contact:**

Contact with the skin during product use is not expected to result in significant irritation.

#### **Eve Contact:**

Sprayed material may cause eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.

### **Ingestion:**

No known health effects.

## **Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

## **Acute Toxicity**

| Name                                    | Route       | Species | Value  |
|---|-------------|---------|--|
| Overall product                         | Ingestion   |         | No data available; calculated ATE >5,000 mg/kg |
| 5-chloro-2-methyl-4-isothiazoline-3-one | Dermal      | Rabbit  | LD50 87 mg/kg                                  |
| 5-chloro-2-methyl-4-isothiazoline-3-one | Inhalation- | Rat     | LC50 0.33 mg/l                                 |
|   | Dust/Mist   |         |  |
|   | (4 hours)   |         |  |
| 5-chloro-2-methyl-4-isothiazoline-3-one | Ingestion   | Rat     | LD50 40 mg/kg                                  |

ATE = acute toxicity estimate

#### Skin Corrosion/Irritation

| Name                                    | Species | Value     |
|---|---------|-----------|
| 5-chloro-2-methyl-4-isothiazoline-3-one | Rabbit  | Corrosive |

### Serious Eye Damage/Irritation

| SCIIOU   | Eye Bumuge/IIIIeucion             |         |           |
|----------|-----------------------------------|---------|-----------|
| Name     |                                   | Species | Value     |
| 5-chlor  | ro-2-methyl-4-isothiazoline-3-one | Rabbit  | Corrosive |
| J-CIIIOI | 10-2-memy1-4-130mazonne-3-one     | ιταυυτι | COHOSIVC  |

### **Skin Sensitization**

## Quik Interior Detailer Wipes G13600 [G13600]

| Name                                    | Species | Value       |
|---|---------|-------------|
| 5-chloro-2-methyl-4-isothiazoline-3-one | Human   | Sensitizing |
|   | and     |             |
|   | animal  |             |

#### **Photosensitization**

| Name                                    | Species | Value           |
|---|---------|-----------------|
| 5-chloro-2-methyl-4-isothiazoline-3-one | Human   | Not sensitizing |
|   | and     |                 |
|   | animal  |                 |

### **Respiratory Sensitization**

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Germ Cell Mutagenicity** 

| Strin Stringthioly                      |          |  |
|---|----------|--|
| Name                                    | Route    | Value  |
| 5-chloro-2-methyl-4-isothiazoline-3-one | In vivo  | Not mutagenic  |
| 5-chloro-2-methyl-4-isothiazoline-3-one | In Vitro | Some positive data exist, but the data are not sufficient for classification |

Carcinogenicity

| Name                                    | Route     | Species | Value            |
|---|-----------|---------|------------------|
| 5-chloro-2-methyl-4-isothiazoline-3-one | Dermal    | Mouse   | Not carcinogenic |
| 5-chloro-2-methyl-4-isothiazoline-3-one | Ingestion | Rat     | Not carcinogenic |

## Reproductive Toxicity

Reproductive and/or Developmental Effects

| Name                                    | Route     | Value                                  | Species | Test result           | Exposure<br>Duration        |
|---|-----------|--|---------|-----------------------|-----------------------------|
| 5-chloro-2-methyl-4-isothiazoline-3-one | Ingestion | Not classified for female reproduction | Rat     | NOAEL 10<br>mg/kg/day | 2 generation                |
| 5-chloro-2-methyl-4-isothiazoline-3-one | Ingestion | Not classified for male reproduction   | Rat     | NOAEL 10<br>mg/kg/day | 2 generation                |
| 5-chloro-2-methyl-4-isothiazoline-3-one | Ingestion | Not classified for development         | Rat     | NOAEL 15<br>mg/kg/day | during<br>organogenesi<br>s |

## Target Organ(s)

Specific Target Organ Toxicity - single exposure

| specific Target Organ Toxicity - single exposure |            |                        |                                   |         |             |          |  |  |
|--|------------|------------------------|-----------------------------------|---------|-------------|----------|--|--|
| Name   | Route      | Target Organ(s)        | Value                             | Species | Test result | Exposure |  |  |
|  |            |                        |                                   |         |             | Duration |  |  |
| 5-chloro-2-methyl-4-                             | Inhalation | respiratory irritation | Some positive data exist, but the | similar | NOAEL Not   |          |  |  |
| isothiazoline-3-one                              |            |                        | data are not sufficient for       | health  | available   |          |  |  |
|  |            |                        | classification                    | hazards |             |          |  |  |

#### Specific Target Organ Toxicity - repeated exposure

For the component/components, either no data are currently available or the data are not sufficient for classification.

#### **Aspiration Hazard**

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

## **SECTION 12: Ecological information**

No data available.

## **SECTION 13: Disposal considerations**

#### 13.1. Disposal methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. Empty and clean product containers may be disposed as nonhazardous waste. Consult your specific regulations and service providers to determine available options and requirements.

## **SECTION 14: Transport Information**

Please contact the emergency numbers listed on the first page of the SDS for Transportation Information for this material.

## **SECTION 15: Regulatory information**

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

### Global inventory status

Contact manufacturer for more information The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Philippines RA 6969 requirements. Certain restrictions may apply. Contact the selling division for additional information. The components of this product are in compliance with the new substance notification requirements of CEPA. This product complies with Measures on Environmental Management of New Chemical Substances. All ingredients are listed on or exempt from on China IECSC inventory. The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

## **SECTION 16: Other information**

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

Health: 0 Flammability: 0 Instability: 0 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

**Document group:** 32-5975-1 **Version number:** 2.00

**Issue Date:** 2021/06/03 **Supercedes Date:** 2018/10/05

This Safety Data Sheet has been prepared in accordance with the Canadian Hazardous Products Regulations.

## **SECTION 1: Identification**

### 1.1. Product identifier

Air Re-Fresher Odor Eliminator (Whole Car) New Car Scent G164 [G16402]

#### 1.2. Recommended use and restrictions on use

#### Intended Use

Automotive

### Specific Use

Air refresher

### Restrictions on use

Not applicable

### 1.3. Supplier's details

**Company:** Meguiar's Canada Inc.

**Division:** Meguiar's

Address: 1840 Oxford Street East, Post Office Box 5790, London, Ontario N6A 0A9

**Telephone:** (800) 364-3577

Website:

## 1.4. Emergency telephone number

Medical Emergency Telephone: 1-800-364-3577; Transportation Emergency Telephone (CANUTEC): (613) 996-6666

## **SECTION 2: Hazard identification**

### 2.1. Classification of the substance or mixture

Flammable Aerosol: Category 1. Gas Under Pressure: Liquefied gas.

#### 2.2. Label elements

Signal word

Danger

\_\_\_\_\_

## Air Re-Fresher Odor Eliminator (Whole Car) New Car Scent G164 [G16402]

## **Symbols**

Flame | Gas cylinder

#### **Pictograms**

#### **Hazard statements**

Extremely flammable aerosol. Contains gas under pressure; may explode if heated.

#### **Precautionary statements**

#### General:

Keep out of reach of children.

#### **Prevention:**

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use.

## Storage:

Protect from sunlight. Do not expose to temperatures exceeding 50C/122F. Store in a well-ventilated place.

#### 2.3. Other hazards

None known

72% of the mixture consists of ingredients of unknown acute oral toxicity.

72% of the mixture consists of ingredients of unknown acute dermal toxicity.

## **SECTION 3: Composition/information on ingredients**

This material is a mixture.

| Ingredient         | C.A.S. No. | % by Wt | Common Name       |
|--------------------|------------|---------|-------------------|
| Tetrafluoropropene | 29118-24-9 | 50 - 85 | No Data Available |
| Ethanol            | 64-17-5    | 10 - 30 | Ethanol           |

## **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

#### Inhalation:

#### **Skin Contact:**

Wash with soap and water. If signs/symptoms develop, get medical attention.

#### **Eye Contact:**

No need for first aid is anticipated.

#### If Swallowed:

No need for first aid is anticipated.

#### 4.2. Most important symptoms and effects, both acute and delayed

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

## 4.3. Indication of any immediate medical attention and special treatment required

Not applicable

## **SECTION 5: Fire-fighting measures**

### 5.1. Suitable extinguishing media

Use a fire fighting agent suitable for the surrounding fire.

### 5.2. Special hazards arising from the substance or mixture

Closed containers exposed to heat from fire may build pressure and explode.

### **Hazardous Decomposition or By-Products**

| <b>Substance</b>  | <u>Condition</u>  |
|-------------------|-------------------|
| Carbon monoxide   | During Combustion |
| Carbon dioxide    | During Combustion |
| Hydrogen Fluoride | During Combustion |

### 5.3. Special protective actions for fire-fighters

Water may not effectively extinguish fire; however, it should be used to keep fire-exposed containers and surfaces cool and prevent explosive rupture.

## **SECTION 6: Accidental release measures**

## 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapours, in accordance with good industrial hygiene practice. Warning! A motor could be an ignition source and could cause flammable gases or vapours in the spill area to burn or explode. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

## 6.2. Environmental precautions

Avoid release to the environment.

#### 6.3. Methods and material for containment and cleaning up

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a metal container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorized person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and SDS. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

## **SECTION 7: Handling and storage**

## 7.1. Precautions for safe handling

Keep out of reach of children. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Avoid breathing dust/fume/gas/mist/vapours/spray. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid contact with oxidizing agents (eg. chlorine, chromic acid etc.)

## 7.2. Conditions for safe storage including any incompatibilities

Protect from sunlight. Do not expose to temperatures exceeding 50C/122F. Store away from heat. Store away from acids. Store away from oxidizing agents.

## **SECTION 8: Exposure controls/personal protection**

## 8.1. Control parameters

### Occupational exposure limits

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient                      | C.A.S. No. | Agency | Limit type    | <b>Additional Comments</b> |
|---------------------------------|------------|--------|---------------|----------------------------|
| 1-Propene, 1,3,3,3-tetrafluoro- | 29118-24-9 | AIHA   | TWA:800 ppm   |                            |
| Ethanol                         | 64-17-5    | ACGIH  | STEL:1000 ppm |                            |

ACGIH: American Conference of Governmental Industrial Hygienists

AIHA: American Industrial Hygiene Association

CMRG: Chemical Manufacturer's Recommended Guidelines

TWA: Time-Weighted-Average STEL: Short Term Exposure Limit

CEIL: Ceiling

#### 8.2. Exposure controls

#### 8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment.

## 8.2.2. Personal protective equipment (PPE)

## Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Full Face Shield

**Indirect Vented Goggles** 

### Skin/hand protection

No chemical protective gloves are required.

## Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapors

Organic vapor respirators may have short service life.

For questions about suitability for a specific application, consult with your respirator manufacturer.

## **SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and chemical properties

| Physical state               | Liquid            |
|------------------------------|-------------------|
| Colour                       | Clear Colorless   |
| Odour                        | Lavender, Vanilla |
| Odour threshold              | No Data Available |
| pH                           | 7                 |
| Melting point/Freezing point | No Data Available |
| <b>Boiling point</b>         | No Data Available |

| Flash Point                                   | >=14.4 °C [Details: flash point of ethyl alcohol]       |
|---|---|
| Evaporation rate                              | No Data Available                                       |
| Flammability (solid, gas)                     | Not Applicable  |
| Flammable Limits(LEL)                         | No Data Available                                       |
| Flammable Limits(UEL)                         | No Data Available                                       |
| Vapour Pressure                               | No Data Available                                       |
| Vapour Density and/or Relative Vapour Density | No Data Available                                       |
| Density                                       | 0.81 g/ml   |
| Relative density                              | 0.81 [Ref Std:WATER=1]                                  |
| Water solubility                              | No Data Available                                       |
| Solubility- non-water                         | No Data Available                                       |
| Partition coefficient: n-octanol/ water       | No Data Available                                       |
| Autoignition temperature                      | No Data Available                                       |
| Decomposition temperature                     | No Data Available                                       |
| Viscosity/Kinematic Viscosity                 | No Data Available                                       |
| Volatile Organic Compounds                    | 24.3 % weight [Test Method:calculated per CARB title 2] |
| Volatile Organic Compounds                    | 196.9 g/l [Test Method:calculated SCAQMD rule 443.1]    |
| Percent volatile                              | 98.4 % weight   |
| VOC Less H2O & Exempt Solvents                | 197.5 g/l [Test Method:calculated SCAQMD rule 443.1]    |
| Molecular weight                              | No Data Available                                       |

#### **Nanoparticles**

This material does not contain nanoparticles.

## **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section.

## 10.2. Chemical stability

Stable.

## 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

#### 10.4. Conditions to avoid

Sparks and/or flames

Heat

## 10.5. Incompatible materials

Strong oxidizing agents

## 10.6. Hazardous decomposition products

**Substance** 

**Condition** 

None known.

Refer to section 5.2 for hazardous decomposition products during combustion.

Extreme heat arising from situations such as misuse or equipment failure can generate hydrogen fluoride as a decomposition product.

## **SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

### 11.1. Information on Toxicological effects

## Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### **Inhalation:**

Respiratory Tract Irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

#### **Skin Contact:**

Contact with the skin during product use is not expected to result in significant irritation.

#### **Eye Contact:**

Contact with the eyes during product use is not expected to result in significant irritation.

#### **Ingestion:**

No known health effects.

#### **Additional Information:**

This product contains ethanol. Alcoholic beverages and ethanol in alcoholic beverages have been classified by the International Agency for Research on Cancer as carcinogenic to humans. There are also data associating human consumption of alcoholic beverages with developmental toxicity and liver toxicity. Exposure to ethanol during the foreseeable use of this product is not expected to cause cancer, developmental toxicity, or liver toxicity.

#### **Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

## **Acute Toxicity**

| Name            | Route                             | Species | Value  |
|-----------------|-----------------------------------|---------|--|
| Overall product | Dermal                            |         | No data available; calculated ATE >5,000 mg/kg |
| Overall product | Ingestion                         |         | No data available; calculated ATE >5,000 mg/kg |
| Ethanol         | Dermal                            | Rabbit  | LD50 > 15,800 mg/kg                            |
| Ethanol         | Inhalation-<br>Vapor (4<br>hours) | Rat     | LC50 124.7 mg/l                                |
| Ethanol         | Ingestion                         | Rat     | LD50 17,800 mg/kg                              |

ATE = acute toxicity estimate

#### Skin Corrosion/Irritation

| Name    | Species | Value                     |
|---------|---------|---------------------------|
| Ethanol | Rabbit  | No significant irritation |

#### Serious Eve Damage/Irritation

| Name    | Species | Value           |
|---------|---------|-----------------|
| Ethanol | Rabbit  | Severe irritant |

#### **Skin Sensitization**

| Name Species Value |  |
|--------------------|--|
|--------------------|--|

### **Aspiration Hazard**

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

## **SECTION 12: Ecological information**

No data available.

## **SECTION 13: Disposal considerations**

## 13.1. Disposal methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Incinerate in a permitted waste incineration facility. Facility must be capable of handling aerosol cans. Combustion products will include HF. Facility must be capable of handling halogenated materials. As a disposal alternative, utilize an acceptable permitted waste disposal facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

## **SECTION 14: Transport Information**

Please contact the emergency numbers listed on the first page of the SDS for Transportation Information for this material.

## **SECTION 15: Regulatory information**

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Global inventory status

Contact manufacturer for more information The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

## **SECTION 16: Other information**

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

Health: 1 Flammability: 4 Instability: 0 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

### 1.2. Recommended use and restrictions on use

#### **Intended Use**

Automotive

## Specific Use

Car wash

#### Restrictions on use

Not applicable

## 1.3. Supplier's details

**Company:** Meguiar's Canada Inc.

**Division:** Meguiar's

Address: 1840 Oxford Street East, Post Office Box 5790, London, Ontario N6A 0A9

**Telephone:** (800) 364-3577

Website:

#### 1.4. Emergency telephone number

Medical Emergency Telephone: 1-800-364-3577; Transportation Emergency Telephone (CANUTEC): (613) 996-6666

## **SECTION 2: Hazard identification**

## 2.1. Classification of the substance or mixture

Serious Eye Damage/Irritation: Category 2A. Skin Corrosion/Irritation: Category 2.

#### 2.2. Label elements

## Signal word

Warning

## **Symbols**

Exclamation mark

### **Pictograms**

### **Hazard statements**

Causes serious eye irritation. Causes skin irritation.

## **Precautionary statements**

#### General:

Keep out of reach of children.

Wear protective gloves and eye/face protection. Wash exposed skin thoroughly after handling.

### **Response:**

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

#### 2.3. Other hazards

None known.

# **SECTION 3: Composition/information on ingredients**

This material is a mixture.

| Ingredient                    | C.A.S. No. | % by Wt              | Common Name                             |
|-------------------------------|------------|----------------------|---|
| Alcohol Ethoxysulfate (Sodium | 68585-34-2 | 1 - 5 Trade Secret * | Poly(oxy-1,2-ethanediyl), .alpha        |
| Salt)                         |            |                      | sulfoomegahydroxy-, C10-16-alkyl        |

<sup>\*</sup>The actual concentration of this ingredient has been withheld as a trade secret.

## **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

#### Inhalation:

Remove person to fresh air. If you feel unwell, get medical attention.

#### **Skin Contact:**

Rinse skin with large amounts of water. If symptoms persist, get medical attention.

Immediately flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. Get medical attention.

#### If Swallowed:

Rinse mouth. If you feel unwell, get medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

## 4.3. Indication of any immediate medical attention and special treatment required

Not applicable

## **SECTION 5: Fire-fighting measures**

#### 5.1. Suitable extinguishing media

Material will not burn.

## 5.2. Special hazards arising from the substance or mixture

None inherent in this product.

## **Hazardous Decomposition or By-Products**

**Substance Condition** Carbon monoxide **During Combustion During Combustion** Carbon dioxide **During Combustion** Irritant Vapours or Gases

### 5.3. Special protective actions for fire-fighters

Wear full protective equipment (Bunker Gear) and a self-contained breathing apparatus (SCBA).

## **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapours, in accordance with good industrial hygiene practice. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

Page: 3 of 10

### 6.2. Environmental precautions

Avoid release to the environment. For larger spills, cover drains and build dikes to prevent entry into sewer systems or bodies of water.

### 6.3. Methods and material for containment and cleaning up

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with water. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

## **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

Keep out of reach of children. Avoid breathing dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment.

### 7.2. Conditions for safe storage including any incompatibilities

Store away from heat.

## **SECTION 8: Exposure controls/personal protection**

### 8.1. Control parameters

#### Occupational exposure limits

No occupational exposure limit values exist for any of the components listed in Section 3 of this SDS.

#### 8.2. Exposure controls

#### 8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment.

### 8.2.2. Personal protective equipment (PPE)

## Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

**Indirect Vented Goggles** 

### Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing. Note: Nitrile gloves may be worn over polymer laminate gloves to improve dexterity.

Gloves made from the following material(s) are recommended: Polymer laminate

## Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following

respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapours and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

## **SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and chemical properties

| Information on basic physical and chemical propertie | es ·   |
|--|--|

| Molecular weight                                     | No Data Available                                      |
|  |  |

## Nanoparticles

This material does not contain nanoparticles.

# **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

This material is considered to be non reactive under normal use conditions.

## 10.2. Chemical stability

Stable.

## 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

## 10.4. Conditions to avoid

Heat

## 10.5. Incompatible materials

None known.

## 10.6. Hazardous decomposition products

**Substance** 

Condition

None known.

Refer to section 5.2 for hazardous decomposition products during combustion.

## **SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

## 11.1. Information on Toxicological effects

### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### Inhalation:

Respiratory Tract Irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

#### **Skin Contact:**

Skin Irritation: Signs/symptoms may include localized redness, swelling, itching, dryness, cracking, blistering, and pain.

#### **Eve Contact:**

Severe Eye Irritation: Signs/symptoms may include significant redness, swelling, pain, tearing, cloudy appearance of the cornea, and impaired vision.

### **Ingestion:**

Gastrointestinal Irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

### **Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

## **Acute Toxicity**

| Name   | Route     | Species | Value  |
|--|-----------|---------|--|
| Overall product  | Dermal    |         | No data available; calculated ATE >5,000 mg/kg |
| Overall product  | Ingestion |         | No data available; calculated ATE >5,000 mg/kg |
| Sodium Mono-C10-16-Alkyl Sulfates  | Dermal    | Rat     | LD50 > 2,000 mg/kg                             |

## **Aspiration Hazard**

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

# **SECTION 12: Ecological information**

No data available.

# **SECTION 13: Disposal considerations**

## 13.1. Disposal methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

## **SECTION 14: Transport Information**

Please contact the emergency numbers listed on the first page of the SDS for Transportation Information for this material.

## **SECTION 15: Regulatory information**

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Global inventory status

Contact manufacturer for more information The components of this material are in compliance with the provisions of the Korea Chemical Control Act. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Philippines RA 6969 requirements. Certain restrictions may apply. Contact the selling division for additional information. The components of this product are in compliance with the new substance notification requirements of CEPA. This product complies with Measures on Environmental Management of New Chemical Substances. All ingredients are listed on or exempt from on China IECSC inventory. The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

## **SECTION 16: Other information**

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

Health: 2 Flammability: 0 Instability: 0 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.
