

# Safety Data Sheet

Copyright,2022, 3M Canada Company. All rights reserved. Copying and/or downloading of this information for the purpose of properly utilizing 3M products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from 3M, and (2) neither the copy nor the original is resold or otherwise distributed with the intention of earning a profit thereon.

| Document group: | 09-0564-6  | Version number:  | 9.04       |
|-----------------|------------|------------------|------------|
| Issue Date:     | 2022/07/21 | Supercedes Date: | 2021/10/13 |

This Safety Data Sheet has been prepared in accordance with the Canadian Hazardous Products Regulations.

| SECTION 1: Identification |
|---------------------------|
|                           |

#### 1.1. Product identifier

3M<sup>™</sup> Hot Melt Adhesive 3798LM

| Product Identification | Numbers        |                |                |                |
|------------------------|----------------|----------------|----------------|----------------|
| 62-3798-7230-2         | 62-3798-7232-8 | 62-3798-9330-8 | 62-3798-9335-7 | 62-3798-9830-7 |
| 62-3798-9835-6         | H0-0020-2398-6 | JS-3000-5039-5 |                |                |

#### 1.2. Recommended use and restrictions on use

#### Intended Use

removeable hot melt adhesive

#### **Restrictions on use**

Not applicable

#### 1.3. Supplier's details

| Company:   | 3M Canada Company  |         |
|------------|--|---------|
| Division:  | Industrial Adhesives and Tapes Division                        |         |
| Address:   | 1840 Oxford Street East, Post Office Box 5757, London, Ontario | N6A 4T1 |
| Telephone: | (800) 364-3577   |         |
| Website:   | www.3M.ca  |         |

#### **1.4.** Emergency telephone number

Medical Emergency Telephone:1-800-3M HELPS / 1-800-364-3577; Transportation Emergency Telephone (CANUTEC): (613) 996-6666

# **SECTION 2: Hazard identification**

#### 2.1. Classification of the substance or mixture

Not classified according to the Canadian Hazardous Products Regulation.

**2.2. Label elements Signal word** Not applicable.

Symbols

Not applicable.

#### Pictograms

Not applicable.

#### 2.3. Other hazards

May cause thermal burns. Repeated exposure may cause skin dryness or cracking.

# **SECTION 3: Composition/information on ingredients**

This material is a mixture.

| Ingredient                | C.A.S. No.   | % by Wt | Common Name   |
|---------------------------|--------------|---------|---|
| Naphthenic Oil            | 64742-52-5   | 40 - 70 | Distillates, petroleum, hydrotreated heavy<br>naphthenicum fraction with hydrogen in<br>the presence of a catalyst. It consists of<br>hydrocarbons having carbon numbers<br>predominantly in the range of C20 through<br>C50 and produces a finished oil of at least<br>100 SUS a |
| Oxidized Polyethylene     | 68441-17-8   | 10 - 30 | Ethene, homopolymer, oxidized   |
| Styrene-Butadiene Polymer | Trade Secret | 10 - 30 | Not Applicable  |
| Hydrocarbon Resin         | Trade Secret | 1 - 3   | Not Applicable  |
| Paraffin Wax              | 8002-74-2    | 1 - 3   | Paraffin waxes and Hydrocarbon waxes  |

Styrene-Butadiene Polymer is a non-hazardous Trade Secret material according to WHMIS criteria. Hydrocarbon Resin is a non-hazardous Trade Secret material according to WHMIS criteria.

# **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

#### Inhalation:

Remove person to fresh air. If you feel unwell, get medical attention.

#### **Skin Contact:**

Immediately flush skin with large amounts of cold water for at least 15 minutes. DO NOT ATTEMPT TO REMOVE MOLTEN MATERIAL. Cover affected area with a clean dressing. Get immediate medical attention.

#### Eye Contact:

Immediately flush eyes with large amounts of water for at least 15 minutes. DO NOT ATTEMPT TO REMOVE MOLTEN MATERIAL. Get immediate medical attention.

#### If Swallowed:

Rinse mouth. If you feel unwell, get medical attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

#### 4.3. Indication of any immediate medical attention and special treatment required

Not applicable

# **SECTION 5: Fire-fighting measures**

#### 5.1. Suitable extinguishing media

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

# 5.2. Special hazards arising from the substance or mixture

None inherent in this product.

#### Hazardous Decomposition or By-Products

| Substance       | <b><u>Condition</u></b> |
|-----------------|-------------------------|
| Carbon monoxide | During Combustion       |
| Carbon dioxide  | During Combustion       |

#### 5.3. Special protective actions for fire-fighters

Wear full protective equipment (Bunker Gear) and a self-contained breathing apparatus (SCBA). Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

## **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Ventilate the area with fresh air. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

#### 6.2. Environmental precautions

Avoid release to the environment.

#### 6.3. Methods and material for containment and cleaning up

Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

# **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

Avoid eye contact. Avoid skin contact with hot material. For industrial or professional use only. Not for consumer sale or use. Avoid breathing dust/fume/gas/mist/vapours/spray. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment.

#### 7.2. Conditions for safe storage including any incompatibilities

No special storage requirements.

# **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

#### **Occupational exposure limits**

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient  | C.A.S. No. | Agency | Limit type           | Additional Comments |
|---|------------|--------|----------------------|---------------------|
| Paraffin Wax  | 8002-74-2  | ACGIH  | TWA(as fume):2 mg/m3 |                     |
| ACGIH : American Conference of Governmental Industrial Hygienists |            |        |                      |                     |

ALTHA : American Industrial Hygiene Association

CMRG : Chemical Manufacturer's Recommended Guidelines

TWA: Time-Weighted-Average

STEL: Short Term Exposure Limit

CEIL: Ceiling

#### 8.2. Exposure controls

#### 8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment.

#### 8.2.2. Personal protective equipment (PPE)

#### **Eye/face protection**

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended: Full Face Shield Indirect Vented Goggles

#### **Skin/hand protection**

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing. Note: Nitrile gloves may be worn over polymer laminate gloves to improve dexterity. Gloves made from the following material(s) are recommended: Polymer laminate

When only incidental contact is anticipated, alternative glove material(s) may be used. If contact with the glove does occur, remove immediately and replace with a set of new gloves. For incidental contact, gloves made of the following material(s) may be used:Nitrile Rubber

#### **Respiratory protection**

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapours and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

#### Thermal hazards

Wear heat insulating gloves - Wear heat insulating gloves, indirect vented goggles, and a full face shield when handling hot material to prevent thermal burns.

# **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

| Physical state               | Solid             |  |
|------------------------------|-------------------|--|
| Specific Physical Form:      | Waxy Solid        |  |
|                              |                   |  |
| Colour                       | Light Brown       |  |
| Odour                        | Styrene-butadiene |  |
| Odour threshold              | No Data Available |  |
| рН                           | Not Applicable    |  |
| Melting point/Freezing point | No Data Available |  |
| Boiling point                | Not Applicable    |  |
| Flash Point                  | >=245 °C          |  |
| Evaporation rate             | Not Applicable    |  |
| Flammability (solid, gas)    | Not Classified    |  |
| Flammable Limits(LEL)        | No Data Available |  |
| Flammable Limits(UEL)        | No Data Available |  |

| Vapour Pressure   | Not Applicable  |  |  |
|---|---|--|--|
| Vapour Density and/or Relative Vapour Density             | Not Applicable  |  |  |
| Density   | 0.91 g/ml   |  |  |
| Relative density  | 0.91 [ <i>Ref Std</i> :WATER=1]                         |  |  |
| Water solubility  | No Data Available                                       |  |  |
| Solubility- non-water                                     | No Data Available                                       |  |  |
| Partition coefficient: n-octanol/ water No Data Available |   |  |  |
| Autoignition temperatureNo Data Available                 |   |  |  |
| Decomposition temperature                                 | No Data Available                                       |  |  |
| Viscosity/Kinematic Viscosity No Data Available           |   |  |  |
| Volatile Organic Compounds                                | 0 % [ <i>Test Method</i> :calculated SCAQMD rule 443.1] |  |  |
| Percent volatile 0 %                                      |   |  |  |
| VOC Less H2O & Exempt Solvents                            | 0 g/l [Test Method:calculated SCAQMD rule 443.1]        |  |  |
| Molecular weight  | No Data Available                                       |  |  |
| Solids Content 100 %                                      |   |  |  |

# **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

This material is considered to be non reactive under normal use conditions.

#### **10.2.** Chemical stability

Stable.

#### **10.3.** Possibility of hazardous reactions

Hazardous polymerization will not occur.

# 10.4. Conditions to avoid

None known.

#### 10.5. Incompatible materials

None known.

#### 10.6. Hazardous decomposition products

Substance

None known.

Refer to section 5.2 for hazardous decomposition products during combustion.

# **SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

11.1. Information on Toxicological effects

Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### **Condition**

#### Inhalation:

Respiratory Tract Irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

#### Skin Contact:

During heating: Thermal Burns: Signs/symptoms may include intense pain, redness and swelling, and tissue destruction. Prolonged or repeated exposure may cause: Dermal Defatting: Signs/symptoms may include localized redness, itching, drying and cracking of skin.

#### Eye Contact:

During heating: Thermal Burns: Signs/symptoms may include severe pain, redness and swelling, and tissue destruction.

#### **Ingestion:**

Gastrointestinal Irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

#### **Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

#### **Acute Toxicity**

| Name                      | Route     | Species | Value  |
|---------------------------|-----------|---------|--|
| Overall product           | Ingestion |         | No data available; calculated ATE >5,000 mg/kg |
| Naphthenic Oil            | Dermal    | Rabbit  | LD50 > 2,000 mg/kg                             |
| Naphthenic Oil            | Ingestion | Rat     | LD50 > 5,000 mg/kg                             |
| Styrene-Butadiene Polymer | Dermal    |         | LD50 estimated to be > 5,000 mg/kg             |
| Styrene-Butadiene Polymer | Ingestion |         | LD50 estimated to be > 5,000 mg/kg             |
| Oxidized Polyethylene     | Ingestion | Rat     | LD50 > 2,500 mg/kg                             |
| Hydrocarbon Resin         | Dermal    |         | LD50 estimated to be > 5,000 mg/kg             |
| Hydrocarbon Resin         | Ingestion |         | LD50 estimated to be > 5,000 mg/kg             |
| Paraffin Wax              | Dermal    | Rat     | LD50 > 5,000 mg/kg                             |
| Paraffin Wax              | Ingestion | Rat     | LD50 > 5,000 mg/kg                             |

ATE = acute toxicity estimate

#### Skin Corrosion/Irritation

| Name                  | Species   | Value                     |
|-----------------------|-----------|---------------------------|
|                       | _         |                           |
| Naphthenic Oil        | Rabbit    | Minimal irritation        |
| Oxidized Polyethylene | Professio | No significant irritation |
|                       | nal       |                           |

| Hydrocarbon Resin     | Professio | No significant irritation |
|                       | nal       |                           |
|                       | judgeme   |                           |
|                       | nt        |                           |
| Paraffin Wax          | Rabbit    | No significant irritation |

#### 3M<sup>TM</sup> Hot Melt Adhesive 3798LM

#### **Skin Sensitization**

| Name           | Species | Value          |
|----------------|---------|----------------|
| Naphthenic Oil | Guinea  | Not classified |
|                | pig     |                |
| Paraffin Wax   | Guinea  | Not classified |
|                | pig     |                |

#### **Respiratory Sensitization**

For the component/components, either no data are currently available or the data are not sufficient for classification.

#### Germ Cell Mutagenicity

| Name         | Route    | Value         |
|--------------|----------|---------------|
| Paraffin Wax | In Vitro | Not mutagenic |

#### Carcinogenicity

| Name           | Route     | Species | Value  |
|----------------|-----------|---------|--|
| Naphthenic Oil | Ingestion | Rat     | Not carcinogenic   |
| Naphthenic Oil | Dermal    | Mouse   | Some positive data exist, but the data are not sufficient for classification |
| Paraffin Wax   | Ingestion | Rat     | Not carcinogenic   |

#### **Reproductive Toxicity**

# **Reproductive and/or Developmental Effects**

For the component/components, either no data are currently available or the data are not sufficient for classification.

#### Target Organ(s)

#### Specific Target Organ Toxicity - single exposure

| Name           | Route      | Target Organ(s)        | Value  | Species | Test result            | Exposure<br>Duration |
|----------------|------------|------------------------|--|---------|------------------------|----------------------|
| Naphthenic Oil | Inhalation | respiratory irritation | Some positive data exist, but the data are not sufficient for classification |         | NOAEL Not<br>available |                      |

#### Specific Target Organ Toxicity - repeated exposure

| Name         | Route     | Target Organ(s)  | Value  | Species | Test result                 | Exposure<br>Duration |
|--------------|-----------|--|--|---------|-----------------------------|----------------------|
| Paraffin Wax | Ingestion | heart  | Some positive data exist, but the data are not sufficient for classification | Rat     | NOAEL 15<br>mg/kg/day       | 90 days              |
| Paraffin Wax | Ingestion | hematopoietic<br>system   liver  <br>immune system  <br>skin   endocrine<br>system   bone, teeth,<br>nails, and/or hair  <br>muscles   nervous<br>system   eyes  <br>kidney and/or<br>bladder   respiratory<br>system   vascular<br>system | Not classified   | Rat     | NOAEL<br>1,500<br>mg/kg/day | 90 days              |

#### Aspiration Hazard

For the component/components, either no data are currently available or the data are not sufficient for classification.

# Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

# **SECTION 12: Ecological information**

No data available.

# **SECTION 13: Disposal considerations**

#### 13.1. Disposal methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility. Proper destruction may require the use of additional fuel during incineration processes. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

# **SECTION 14: Transport Information**

Not regulated per U.S. DOT, IATA or IMO.

These transportation classifications are provided as a customer service. As the shipper YOU remain responsible for complying with all applicable laws and regulations, including proper transportation classification and packaging. 3M's transportation classifications are based on product formulation, packaging, 3M policies and 3M's understanding of applicable current regulations. 3M does not guarantee the accuracy of this classification information. This information applies only to transportation classification and not the packaging, labeling, or marking requirements. The original 3M package is certified for Canadian ground shipment only. If you are shipping by air or ocean, the package may not meet applicable regulatory requirements.

# **SECTION 15: Regulatory information**

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Global inventory status

Contact 3M for more information. The components of this material are in compliance with the provisions of the Korea Chemical Control Act. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Japan Chemical Substance Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Japan Chemical Substance Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Philippines RA 6969 requirements. Certain restrictions may apply. Contact the selling division for additional information. The components of CEPA. This product complies with Measures on Environmental Management of New Chemical Substances. All ingredients are listed on or exempt from on China IECSC inventory. The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

## **SECTION 16: Other information**

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or

# similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

Health: 1 Flammability: 1 Instability: 0 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

The information in this Safety Data Sheet (SDS) is believed to be correct as of the date issued. The manufacturer MAKES NO WARRANTIES, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF PERFORMANCE, COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. User is responsible for determining whether the product is fit for a particular purpose and suitable for user's method of use or application. Given the variety of factors that can affect the use and application of a product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the product to determine whether it is fit for a particular purpose and suitable for user's method of use or application.
