Copyright, 2022, 3M Company.

All rights reserved. Copying and/or downloading of this information for the purpose of properly utilizing 3M products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from 3M, and (2) neither the copy nor the original is resold or otherwise distributed with the intention of earning a profit thereon.

**Document Group:** 08-2999-4 **Version Number:** 3.00

**Issue Date:** 24/08/2022 **Supercedes Date:** 14/11/2018

This Safety Data Sheet has been prepared in accordance with the Malaysia Occupational Safety and Health (Chemical Classification, Labelling and Safety Data Sheets) Regulations 2013.

# **SECTION 1: Identification**

#### 1.1. Product identifier

3M<sup>TM</sup> Glass Cleaner (Concentrate), 38099, 38100, 38101, 38300, 38399

**Product Identification Numbers** 

60-4400-7339-7 60-4400-9627-3 60-4400-9628-1

#### 1.2. Recommended use and restrictions on use

#### Recommended use

Automotive, Glass Cleaner

#### 1.3. Supplier's details

ADDRESS: 3M Malaysia Sdn. Bhd., Level 8, Block F, Oasis Square, No.2, Jalan PJU 1A/7A, Ara Damansara 47301

Petaling, Jaya, Selangor

**Telephone:** 03-7884 2888

E Mail: 3mmyehsr@mmm.com Website: www.3M.com.my

#### 1.4. Emergency telephone number

+60 03-7884 2888

# **SECTION 2: Hazard identification**

#### 2.1. Classification of the substance or mixture

Flammable Liquid: Category 2. Skin Corrosion/Irritation: Category 2. Serious Eye Damage/Irritation: Category 2.

#### 2.2. Label elements

# Signal word

Danger

#### **Symbols**

Flame |Exclamation mark |

#### **Pictograms**

**Hazard Statements:** 

H225 Highly flammable liquid and vapor.

H315 Causes skin irritation. H319 Causes serious eye irritation.

**Precautionary statements** 

General:

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

**Prevention:** 

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.

No smoking.

**Response:** 

P302 + P352 IF ON SKIN: Wash with plenty of soap and water.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing.

P332 + P313 If skin irritation occurs: Get medical advice/attention.

P370 + P378 In case of fire: Use a fire fighting agent suitable for flammable liquids such as dry

chemical or carbon dioxide to extinguish.

Disposal:

P501 Dispose of contents/container in accordance with applicable

local/regional/national/international regulations.

#### 2.3. Other hazards

May cause drowsiness or dizziness.

# **SECTION 3: Composition/information on ingredients**

This material is a mixture.

| Ingredient        | C.A.S. No. | % by Wt |
|-------------------|------------|---------|
| 2-Butoxyethanol   | 111-76-2   | 30 - 50 |
| Acetone           | 67-64-1    | 30 - 50 |
| Isopropyl Alcohol | 67-63-0    | 10 - 30 |

# **SECTION 4: First aid measures**

### 4.1. Description of first aid measures

#### Inhalation:

Remove person to fresh air. If you feel unwell, get medical attention.

#### **Skin Contact:**

Immediately wash with soap and water. Remove contaminated clothing and wash before reuse. If signs/symptoms develop, get medical attention.

#### **Eye Contact:**

Immediately flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. Get medical attention.

#### If Swallowed:

Rinse mouth. If you feel unwell, get medical attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

#### 4.3. Indication of any immediate medical attention and special treatment required

Not applicable

# **SECTION 5: Fire-fighting measures**

#### 5.1. Suitable extinguishing media

In case of fire: Use a fire fighting agent suitable for flammable liquids such as dry chemical or carbon dioxide to extinguish.

#### 5.2. Special hazards arising from the substance or mixture

Closed containers exposed to heat from fire may build pressure and explode.

#### **Hazardous Decomposition or By-Products**

<u>Substance</u> Carbon monoxide Carbon dioxide

# Condition During Combustic

During Combustion During Combustion

### 5.3. Special protective actions for fire-fighters

Water may not effectively extinguish fire; however, it should be used to keep fire-exposed containers and surfaces cool and prevent explosive rupture. Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

# **SECTION 6: Accidental release measures**

# 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Warning! A motor could be an ignition source and could cause flammable gases or vapors in the spill area to burn or explode. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

#### **6.2.** Environmental precautions

Avoid release to the environment. For larger spills, cover drains and build dikes to prevent entry into sewer systems or bodies of water.

#### 6.3. Methods and material for containment and cleaning up

Contain spill. Cover spill area with a fire extinguishing foam that is resistant to polar solvents. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a metal container approved for transportation by appropriate authorities. Clean up residue with water. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

# **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

Keep out of reach of children. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing dust/fume/gas/mist/vapors/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Avoid contact with oxidizing agents (eg. chlorine, chromic acid etc.) Wear low static or properly grounded shoes. To minimize the risk of ignition, determine applicable electrical classifications for the process using this product and select specific local exhaust ventilation equipment to avoid flammable vapor accumulation. Ground/bond container and receiving equipment if there is potential for static electricity accumulation during transfer.

### 7.2. Conditions for safe storage including any incompatibilities

Store in a well-ventilated place. Keep cool. Keep container tightly closed. Store away from heat. Store away from acids. Store away from oxidizing agents.

# **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

### Occupational exposure limits

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient        | C.A.S. No. | Agency        | Limit type                 | <b>Additional Comments</b> |
|-------------------|------------|---------------|----------------------------|----------------------------|
| 2-Butoxyethanol   | 111-76-2   | ACGIH         | TWA:20 ppm                 | A3: Confirmed animal       |
|                   |            |               |                            | carcin.                    |
| 2-Butoxyethanol   | 111-76-2   | Malaysia OELs | TWA(8 hours):96.7 mg/m3(20 | SKIN                       |
|                   |            |               | ppm)                       |                            |
| Isopropyl Alcohol | 67-63-0    | ACGIH         | TWA:200 ppm;STEL:400 ppm   | A4: Not class. as human    |
|                   |            |               |                            | carcin                     |
| Isopropyl Alcohol | 67-63-0    | Malaysia OELs | TWA(8 hours):983           |                            |
|                   |            |               | mg/m3(400 ppm)             |                            |
| Acetone           | 67-64-1    | ACGIH         | TWA:250 ppm;STEL:500 ppm   | A4: Not class. as human    |
|                   |            |               |                            | carcin                     |
| Acetone           | 67-64-1    | Malaysia OELs | TWA(8 hours):1187          |                            |
|                   |            |               | mg/m3(500 ppm)             |                            |

ACGIH: American Conference of Governmental Industrial Hygienists

CMRG: Chemical Manufacturer's Recommended Guidelines

Malaysia OELs: Malaysia. Occupational Safety and Health (Use and Standards of Exposure of Chemicals Hazardous to Health) Regulations

TWA: Time-Weighted-Average STEL: Short Term Exposure Limit

CEIL: Ceiling

### 8.2. Exposure controls

#### 8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapors/spray. If ventilation is not adequate, use respiratory protection equipment. Use explosion-proof ventilation equipment.

## 8.2.2. Personal protective equipment (PPE)

#### Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

**Indirect Vented Goggles** 

### Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing.

Gloves made from the following material(s) are recommended: Butyl Rubber Fluoroelastomer

### Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapors Organic vapor respirators may have short service life.

For questions about suitability for a specific application, consult with your respirator manufacturer.

# **SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and chemical properties

| Physical state                                    | Liquid  |
|---|---|
| Color   | Blue  |
| Odor  | Solvent   |
| Odor threshold                                    | No Data Available                                     |
| pH  | Not Applicable  |
| Melting point/Freezing point                      | No Data Available                                     |
| Boiling point/Initial boiling point/Boiling range | 54.4 - 57.2 °C  |
| Flash Point                                       | -17.2 °C [Test Method:Closed Cup]                     |
| Evaporation rate                                  | No Data Available                                     |
| Flammability (solid, gas)                         | Not Applicable  |
| Flammable Limits(LEL)                             | No Data Available                                     |
| Flammable Limits(UEL)                             | No Data Available                                     |
| Vapor Pressure                                    | <=186,158.4 Pa [@ 55 °C ]                             |
| Vapor Density and/or Relative Vapor Density       | No Data Available                                     |
| Density   | 0.82 g/ml   |
| Relative Density                                  | 0.82 [Ref Std:WATER=1]                                |
| Water solubility                                  | Complete  |
| Solubility- non-water                             | No Data Available                                     |
| Partition coefficient: n-octanol/ water           | No Data Available                                     |
| Autoignition temperature                          | No Data Available                                     |
| Decomposition temperature                         | No Data Available                                     |
| Viscosity/Kinematic Viscosity                     | 1 - 10 mPa-s  |
| Volatile Organic Compounds                        | 492 g/l [Test Method:calculated SCAQMD rule 443.1]    |
| Volatile Organic Compounds                        | 60 % weight [Test Method:calculated per CARB title 2] |
| Percent volatile                                  | 100 % weight  |
| VOC Less H2O & Exempt Solvents                    | 842 g/l [Test Method:calculated SCAQMD rule 443.1]    |
| Molecular weight                                  | No Data Available                                     |

# **SECTION 10: Stability and reactivity**

## 10.1. Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section.

### 10.2. Chemical stability

Stable.

### 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

#### 10.4. Conditions to avoid

Sparks and/or flames

Heat

#### 10.5. Incompatible materials

None known.

## 10.6. Hazardous decomposition products

#### **Substance**

**Condition** 

None known.

Refer to section 5.2 for hazardous decomposition products during combustion.

# **SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

### 11.1. Information on Toxicological effects

#### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### **Inhalation:**

Respiratory Tract Irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

May cause additional health effects (see below).

#### **Skin Contact:**

Skin Irritation: Signs/symptoms may include localized redness, swelling, itching, dryness, cracking, blistering, and pain.

#### **Eye Contact:**

Severe Eye Irritation: Signs/symptoms may include significant redness, swelling, pain, tearing, cloudy appearance of the cornea, and impaired vision.

#### **Ingestion:**

May be harmful if swallowed.

Gastrointestinal Irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

May cause additional health effects (see below).

#### **Additional Health Effects:**

# Single exposure may cause target organ effects:

Central Nervous System (CNS) Depression: Signs/symptoms may include headache, dizziness, drowsiness, incoordination, nausea, slowed reaction time, slurred speech, giddiness, and unconsciousness.

#### **Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

**Acute Toxicity** 

| Name              | Route                             | Species       | Value   |
|-------------------|-----------------------------------|---------------|---|
| Overall product   | Inhalation-<br>Vapor(4 hr)        |               | No data available; calculated ATE >50 mg/l              |
| Overall product   | Ingestion                         |               | No data available; calculated ATE >2,000 - =5,000 mg/kg |
| Acetone           | Dermal                            | Rabbit        | LD50 > 15,688 mg/kg                                     |
| Acetone           | Inhalation-<br>Vapor (4<br>hours) | Rat           | LC50 76 mg/l  |
| Acetone           | Ingestion                         | Rat           | LD50 5,800 mg/kg  |
| 2-Butoxyethanol   | Dermal                            | Guinea<br>pig | LD50 > 2,000 mg/kg                                      |
| 2-Butoxyethanol   | Inhalation-<br>Vapor (4<br>hours) | Guinea<br>pig | LC50 > 2.6 mg/l   |
| 2-Butoxyethanol   | Ingestion                         | Guinea<br>pig | LD50 1,200 mg/kg  |
| Isopropyl Alcohol | Dermal                            | Rabbit        | LD50 12,870 mg/kg                                       |
| Isopropyl Alcohol | Inhalation-<br>Vapor (4<br>hours) | Rat           | LC50 72.6 mg/l  |
| Isopropyl Alcohol | Ingestion                         | Rat           | LD50 4,710 mg/kg  |

ATE = acute toxicity estimate

### Skin Corrosion/Irritation

| Name              | Species                       | Value                     |
|-------------------|-------------------------------|---------------------------|
| Acetone           | Mouse                         | Minimal irritation        |
| 2-Butoxyethanol   | Rabbit                        | Irritant                  |
| Isopropyl Alcohol | Multiple<br>animal<br>species | No significant irritation |

**Serious Eye Damage/Irritation** 

| Serious Lye Luminger in record |         |                 |
|--------------------------------|---------|-----------------|
| Name                           | Species | Value           |
| Acetone                        | Rabbit  | Severe irritant |
| 2-Butoxyethanol                | Rabbit  | Severe irritant |
| Isopropyl Alcohol              | Rabbit  | Severe irritant |

#### **Sensitization:**

#### **Skin Sensitization**

| Skin Schsitization |         |                |
|--------------------|---------|----------------|
| Name               | Species | Value          |
|                    |         |                |
| 2-Butoxyethanol    | Guinea  | Not classified |
|                    | pig     |                |
| Isopropyl Alcohol  | Guinea  | Not classified |
|                    | pig     |                |

## **Respiratory Sensitization**

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Germ Cell Mutagenicity** 

| Name              | Route    | Value  |
|-------------------|----------|--|
| Acetone           | In vivo  | Not mutagenic  |
| Acetone           | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| 2-Butoxyethanol   | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| Isopropyl Alcohol | In Vitro | Not mutagenic  |
| Isopropyl Alcohol | In vivo  | Not mutagenic  |

Carcinogenicity

| Name              | Route      | Species            | Value  |
|-------------------|------------|--------------------|--|
| Acetone           | Not        | Multiple           | Not carcinogenic   |
|                   | Specified  | animal             |  |
|                   |            | species            |  |
| 2-Butoxyethanol   | Inhalation | Multiple<br>animal | Some positive data exist, but the data are not sufficient for classification |

#### **Aspiration Hazard**

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

# **SECTION 12: Ecological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. Additional information leading to material classification in Section 2 is available upon request. In addition, environmental fate and effects data on ingredients may not be reflected in this section because an ingredient is present below the threshold for labeling, an ingredient is not expected to be available for exposure, or the data is considered not relevant to the material as a whole.

### 12.1. Toxicity

## Acute aquatic hazard:

GHS Acute 3: Harmful to aquatic life.

### Chronic aquatic hazard:

Not chronically toxic to aquatic life by GHS criteria.

No product test data available

#### 12.4. Mobility in soil

Please contact manufacturer for more details

#### 12.5 Other adverse effects

No information available

# **SECTION 13: Disposal considerations**

### 13.1. Disposal methods

According to the Environmental Quality (Scheduled Wastes) Regulations 2005, scheduled waste has to be sent to a prescribed premise for recycling, treatment or disposal. Please approach Kualiti Alam for proper schedule waste classification and disposal.

# **SECTION 14: Transport Information**

#### Marine Transport (IMDG)

UN Number: UN1993

Proper Shipping Name: FLAMMABLE LIQUID, N.O.S.

Technical Name: None assigned.

Hazard Class/Division:3

Subsidiary Risk: None assigned.

Packing Group:II

Limited Quantity: None assigned. Marine Pollutant: None assigned.

Marine Pollutant Technical Name: None assigned.

Other Dangerous Goods Descriptions:

None assigned.

## Air Transport (IATA)

Forbidden: 3M packaging does not meet regulatory agency requirements

Transportation classifications are provided as a customer service. As for shipping, YOU remain responsible for complying with all applicable laws and regulations, including proper transportation classification and packaging. 3M's transportation classifications are based on product formulation, packaging, 3M policies and 3M's understanding of applicable current regulations. 3M does not guarantee the accuracy of this classification information. This information applies only to transportation classification and not the packaging, labeling or marking requirements. The above information is only for reference. If you are shipping by air or ocean, YOU are advised to check & meet applicable regulatory requirements.

# **SECTION 15: Regulatory information**

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Global inventory status

Contact 3M for more information. The components of this material are in compliance with the provisions of the Korea Chemical Control Act. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Philippines RA 6969 requirements. Certain restrictions may apply. Contact the selling division for additional information. This product complies with Measures on Environmental Management of New Chemical Substances. All ingredients are listed on or exempt from on China IECSC inventory. The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

# **SECTION 16: Other information**

DISCLAIMER: The information in this Safety Data Sheet (SDS) is based on our experience and is correct to the best of our knowledge at the date of publication, but we do not accept any liability for any loss, damage or injury resulting from its use (except as required by law). The information may not be valid for any use not referred to in this SDS or use of the product in combination with other materials. For these reasons, it is important that customers carry out their own evaluation to satisfy themselves as to the suitability of the product for their own intended applications. In addition, this SDS is being provided to convey health and safety information. If you are the importer of record of this product into Malaysia, you are responsible for all applicable regulatory requirements, including, but not limited to, product registrations/notifications, substance volume tracking, and potential substance registration/notification.

3M Malaysia SDSs are available at www.3M.com.my
