| <b>Revision date:</b>                 | 14/12/2023 | <b>Supersedes date:</b> | 03/08/2022 |
| <b>Transportation version number:</b> |            |                         |            |

This Safety Data Sheet has been prepared in accordance with the REACH Regulation (1907/2006), as amended for GB.

### IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

#### 1.1. Product identifier

3M™ Scotch-Weld™ Epoxy Adhesive EC-3542 B/A FR

#### Product Identification Numbers

87-3300-0130-3

7100142520

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### Identified uses

2-part, semi-structural adhesive, Industrial use.

#### 1.3. Details of the supplier of the safety data sheet

**Address:** 3M United Kingdom PLC, 3M Centre, Cain Road, Bracknell, Berkshire, RG12 8HT.  
**Telephone:** +44 (0)1344 858 000  
**E Mail:** tox.uk@mmm.com

**Website:** [www.3M.com/uk](http://www.3M.com/uk)

#### 1.4. Emergency telephone number

+44 (0)1344 858 000

This product is a kit or a multipart product which consists of multiple, independently packaged components. A Safety Data Sheet for each of these components is included. Please do not separate the component Safety Data Sheets from this cover page. The document numbers of the MSDSs for components of this product are:

36-6156-8, 36-6157-6

### TRANSPORTATION INFORMATION

Refer to section 14 of the kit components for transport information.

## KIT LABEL

### 2.1. Classification of the substance or mixture

The retained CLP Regulation (EU) No 1272/2008 as amended for Great Britain

#### CLASSIFICATION:

Substance or Mixture Corrosive to Metals, Category 1 - Met. Corr. 1; H290  
Skin Corrosion/ Irritation, Category 1C - Skin Corr. 1C; H314  
Serious Eye Damage/Eye Irritation, Category 1 - Eye Dam. 1; H318  
Skin Sensitization, Category 1 - Skin Sens. 1; H317  
Germ Cell Mutagenicity, Category 2 - Muta. 2; H341  
Reproductive Toxicity, Category 1B - Repr. 1B; H360F  
Hazardous to the Aquatic Environment (Chronic), Category 2 - Aquatic Chronic 2; H411

For full text of H phrases, see Section 16.

### 2.2. Label elements

The retained CLP Regulation (EU) No 1272/2008 as amended for Great Britain

#### SIGNAL WORD

DANGER.

#### Symbols

GHS05 (Corrosion) |GHS07 (Exclamation mark) |GHS08 (Health Hazard) |GHS09 (Environment) |

#### Pictograms

#### Contains:

m-Xylene-.alpha.alpha'.-diamine; 1,2-Ethanediamine, phosphate; bis-[4-(2,3-epoxipropoxy)phenyl]propane; Epichlorhydrin - trimethylolpropane copolymer; 3,3'-Oxybis(ethyleneoxy)bis(propylamine)

#### HAZARD STATEMENTS:

|       |  |
|-------|--|
| H290  | May be corrosive to metals.                      |
| H314  | Causes severe skin burns and eye damage.         |
| H317  | May cause an allergic skin reaction.             |
| H341  | Suspected of causing genetic defects.            |
| H360F | May damage fertility.                            |
| H411  | Toxic to aquatic life with long lasting effects. |

#### PRECAUTIONARY STATEMENTS

##### Prevention:

|       |   |
|-------|---|
| P201  | Obtain special instructions before use.   |
| P260G | Do not breathe vapours or dust.   |
| P280J | Wear protective gloves, protective clothing, respiratory protection, and eye/face protection. |

##### Response:

|                    |  |
|--------------------|--|
| P303 + P361 + P353 | IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or |
|--------------------|--|

P305 + P351 + P338 shower.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P310 Immediately call a POISON CENTRE or doctor/physician.

**SUPPLEMENTAL INFORMATION:**

**Supplemental Precautionary Statements:**

Restricted to professional users.

Refer to Safety Data Sheet for component % unknown values ([www.3M.com/msds](http://www.3M.com/msds)).

**Revision information:**

GB Kit Information: CLP Percent Unknown information was added.

GB Label: CLP Ingredients - kit components information was added.

Label: CLP Percent Unknown - Kit information was deleted.

Kit: Component document group number(s) information was modified.

Label: CLP Ingredients - kit components information was deleted.

## Safety Data Sheet

Copying and/or downloading of this information for the purpose of properly utilizing 3M products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from 3M, and (2) neither the copy nor the original is resold or otherwise distributed with the intention of earning a profit thereon.

|                        |            |                         |            |
|------------------------|------------|-------------------------|------------|
| <b>Document group:</b> | 36-6156-8  | <b>Version number:</b>  | 5.00       |
| <b>Revision date:</b>  | 14/12/2023 | <b>Supersedes date:</b> | 14/12/2023 |

This Safety Data Sheet has been prepared in accordance with the REACH Regulation (1907/2006), as amended for GB.

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

3M™ Scotch-Weld™ Epoxy Adhesive EC-3542 B/A FR Part A

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### Identified uses

Part A of a 2-part Epoxy Adhesive, Industrial use.

#### 1.3. Details of the supplier of the safety data sheet

**Address:** 3M United Kingdom PLC, 3M Centre, Cain Road, Bracknell, Berkshire, RG12 8HT.  
**Telephone:** +44 (0)1344 858 000  
**E Mail:** tox.uk@mmm.com  
**Website:** www.3M.com/uk

#### 1.4. Emergency telephone number

+44 (0)1344 858 000

### SECTION 2: Hazard identification

#### 2.1. Classification of the substance or mixture

The retained CLP Regulation (EU) No 1272/2008 as amended for Great Britain

The health and environmental classifications of this material have been derived using the calculation method, except in cases where test data are available or the physical form impacts classification. Classification(s) based on test data or physical form are noted below, if applicable.

This material has been tested for skin corrosion/irritation and the test results are reflected in the assigned classification.

##### CLASSIFICATION:

Substance or Mixture Corrosive to Metals, Category 1 - Met. Corr. 1; H290

Skin Corrosion/ Irritation, Category 1C - Skin Corr. 1C; H314

Serious Eye Damage/Eye Irritation, Category 1 - Eye Dam. 1; H318

Skin Sensitization, Category 1 - Skin Sens. 1; H317

For full text of H phrases, see Section 16.

## 2.2. Label elements

### The retained CLP Regulation (EU) No 1272/2008 as amended for Great Britain

#### SIGNAL WORD

DANGER.

#### Symbols

GHS05 (Corrosion) |GHS07 (Exclamation mark) |

#### Pictograms

| Ingredient                               | CAS Nbr   | EC No.    | % by Wt |
|--|-----------|-----------|---------|
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | 4246-51-9 | 224-207-2 | 20 - 30 |
| m-Xylene-.alpha.alpha'.-diamine          | 1477-55-0 | 216-032-5 | 1 - 10  |

#### HAZARD STATEMENTS:

|      |  |
|------|--|
| H290 | May be corrosive to metals.              |
| H314 | Causes severe skin burns and eye damage. |
| H317 | May cause an allergic skin reaction.     |

#### PRECAUTIONARY STATEMENTS

##### Prevention:

|       |   |
|-------|---|
| P260G | Do not breathe vapours or dust.                                       |
| P280D | Wear protective gloves, protective clothing, and eye/face protection. |

##### Response:

|                    |  |
|--------------------|--|
| P303 + P361 + P353 | IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.                           |
| P305 + P351 + P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P310               | Immediately call a POISON CENTRE or doctor/physician.  |
| P333 + P313        | If skin irritation or rash occurs: Get medical advice/attention.   |

15% of the mixture consists of components of unknown acute oral toxicity.

Contains 15% of components with unknown hazards to the aquatic environment.

## 2.3. Other hazards

Persons previously sensitised to amines may develop a cross-sensitisation reaction to certain other amines. This material does not contain any substances that are assessed to be a PBT or vPvB

## SECTION 3: Composition/information on ingredients

### 3.1. Substances

Not applicable

### 3.2. Mixtures

| Ingredient  | Identifier(s)                              | %       | Classification according to Regulation (EC) No. 1272/2008 [CLP], as amended for GB  |
|---|--|---------|---|
| Oxide glass chemicals                                     | (CAS-No.) 65997-17-3<br>(EC-No.) 266-046-0 | 20 - 30 | Substance with a national occupational exposure limit   |
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine)                  | (CAS-No.) 4246-51-9<br>(EC-No.) 224-207-2  | 20 - 30 | Skin Corr. 1B, H314<br>Eye Dam. 1, H318<br>Skin Sens. 1, H317   |
| UNDISCLOSED MATERIAL                                      | Trade Secret                               | 5 - 20  | Substance not classified as hazardous   |
| 1,2-Ethanediamine, phosphate                              | (CAS-No.) 14852-17-6<br>(EC-No.) 238-914-9 | 1 - 20  | Skin Sens. 1B, H317   |
| m-Xylene-.alpha.alpha'.-diamine                           | (CAS-No.) 1477-55-0<br>(EC-No.) 216-032-5  | 1 - 10  | Acute Tox. 4, H332<br>Acute Tox. 4, H302<br>Skin Corr. 1B, H314<br>Skin Sens. 1, H317<br>Aquatic Chronic 3, H412                                  |

Please see section 16 for the full text of any H statements referred to in this section

For information on ingredient occupational exposure limits or PBT or vPvB status, see sections 8 and 12 of this SDS

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### Inhalation

Remove person to fresh air. If you feel unwell, get medical attention.

#### Skin contact

Immediately flush with large amounts of water for at least 15 minutes. Remove contaminated clothing. Get immediate medical attention. Wash clothing before reuse.

**Eye contact**

Immediately flush with large amounts of water for at least 15 minutes. Remove contact lenses if easy to do. Continue rinsing. Immediately get medical attention.

**If swallowed**

Rinse mouth. Do not induce vomiting. Get immediate medical attention.

**4.2. Most important symptoms and effects, both acute and delayed**

The most important symptoms and effects based on the GB CLP classification include:  
Skin burns (localized redness, swelling, itching, intense pain, blistering, and tissue destruction). Allergic skin reaction (redness, swelling, blistering, and itching).

**4.3. Indication of any immediate medical attention and special treatment required**

Overexposure to this product may result in methemoglobinemia. Methemoglobinemia may be clinically suspected by the presence of clinical "cyanosis" in the presence of a normal PaO2 (as obtained by arterial blood gases). Routine pulse oximetry may be inaccurate for monitoring oxygen saturation in the presence of methemoglobinemia, and should not be used to make the diagnosis of this disorder. If the patient is symptomatic or if the methemoglobin level is >20%, specific therapy with methylene blue should be considered as part of the medical management.

**SECTION 5: Fire-fighting measures**

**5.1. Extinguishing media**

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

**5.2. Special hazards arising from the substance or mixture**

None inherent in this product.

**Hazardous Decomposition or By-Products**

Substance

Aldehydes.  
Carbon monoxide  
Carbon dioxide.

Condition

During combustion.  
During combustion.  
During combustion.

**5.3. Advice for fire-fighters**

Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

**SECTION 6: Accidental release measures**

**6.1. Personal precautions, protective equipment and emergency procedures**

Evacuate area. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapours, in accordance with good industrial hygiene practice. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

**6.2. Environmental precautions**

Avoid release to the environment. For larger spills, cover drains and build dykes to prevent entry into sewer systems or bodies of water.

**6.3. Methods and material for containment and cleaning up**

Contain spill. For large spills, if necessary, get assistance from professional spill clean up team. For small spills, carefully neutralise spill by adding appropriate dilute acid such as vinegar. Work slowly to avoid boiling or spattering. Continue to add neutralising agent until reaction stops. Let cool before collecting. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a metal container approved for use in transportation by

appropriate authorities. The container must be lined with polyethylene plastic or contain a plastic drum liner made of polyethylene. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Cover, but do not seal for 48 hours. Dispose of collected material as soon as possible.

**6.4. Reference to other sections**

Refer to Section 8 and Section 13 for more information

**SECTION 7: Handling and storage**

**7.1. Precautions for safe handling**

Do not use in a confined area with minimal air exchange. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wash contaminated clothing before reuse. Use personal protective equipment (eg. gloves, respirators...) as required.

**7.2. Conditions for safe storage including any incompatibilities**

Protect from sunlight. Store away from heat. Keep only in original container. Store in a corrosive resistant container with a resistant inner liner. Store away from acids.

**7.3. Specific end use(s)**

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

**SECTION 8: Exposure controls/personal protection**

**8.1 Control parameters**

**Occupational exposure limits**

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| <b>Ingredient</b>       | <b>CAS Nbr</b> | <b>Agency</b>              | <b>Limit type</b>   | <b>Additional comments</b> |
|-------------------------|----------------|----------------------------|---|----------------------------|
| toluene                 | 108-88-3       | UK HSC                     | TWA: 191 mg/m <sup>3</sup> (50 ppm);<br>STEL: 384 mg/m <sup>3</sup> (100 ppm)   | SKIN                       |
| Glass, oxide, chemicals | 65997-17-3     | UK HSC                     | TWA(as fiber):5 mg/m <sup>3</sup> (1<br>fibers/ml)  |                            |
| Oxide glass chemicals   | 65997-17-3     | Manufacturer<br>determined | TWA(as non-fibrous,<br>respirable)(8 hours):3<br>mg/m <sup>3</sup> ;TWA(as non-fibrous,<br>inhalable fraction)(8 hours):10<br>mg/m <sup>3</sup> |                            |
| Silicon dioxide         | 92797-60-9     | UK HSC                     | TWA(as respirable dust):2.4<br>mg/m <sup>3</sup> ;TWA(as inhalable<br>dust):6 mg/m <sup>3</sup>   |                            |

UK HSC : UK Health and Safety Commission

TWA: Time-Weighted-Average

STEL: Short Term Exposure Limit

CEIL: Ceiling

**Biological limit values**

No biological limit values exist for any of the components listed in Section 3 of this safety data sheet.

**8.2. Exposure controls**

**8.2.1. Engineering controls**

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment. Provide appropriate local exhaust ventilation for cutting, grinding, sanding or machining.

### 8.2.2. Personal protective equipment (PPE)

#### Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Full face shield.  
Indirect vented goggles.

#### *Applicable Norms/Standards*

Use eye/face protection conforming to EN 166

#### Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing.

Gloves made from the following material(s) are recommended:

| Material      | Thickness (mm) | Breakthrough Time |
|---------------|----------------|-------------------|
| Butyl rubber. | 0.7            | =>8 hours         |
| Neoprene.     | 0.5            | =>8 hours         |

The glove data presented are based on the substance driving dermal toxicity and the conditions present at the time of testing. Breakthrough time may be altered when the glove is subjected to use conditions that place additional stress on the glove.

#### *Applicable Norms/Standards*

Use gloves tested to EN 374

If this product is used in a manner that presents a higher potential for exposure (eg. spraying, high splash potential etc.), then use of protective coveralls may be necessary. Select and use body protection to prevent contact based on the results of an exposure assessment. The following protective clothing material(s) are recommended: Apron – Butyl rubber  
Neoprene apron.

#### Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapours and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

#### *Applicable Norms/Standards*

Use a respirator conforming to EN 140 or EN 136: filter types A & P

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Physical state

Liquid.

|   |  |
|---|--|
| <b>Specific Physical Form:</b>                | Thixotropic paste  |
| <b>Colour</b>                                 | Grey   |
| <b>Odor</b>                                   | Slight Amine   |
| <b>Odour threshold</b>                        | <i>No data available.</i>                                      |
| <b>Melting point/freezing point</b>           | <i>Not applicable.</i>   |
| <b>Boiling point/boiling range</b>            | <i>No data available.</i>                                      |
| <b>Flammability (solid, gas)</b>              | Not applicable.  |
| <b>Flammable Limits(LEL)</b>                  | <i>No data available.</i>                                      |
| <b>Flammable Limits(UEL)</b>                  | <i>No data available.</i>                                      |
| <b>Flash point</b>                            | Flash point > 93 °C (200 °F) [ <i>Test Method:Closed Cup</i> ] |
| <b>Autoignition temperature</b>               | <i>No data available.</i>                                      |
| <b>Decomposition temperature</b>              | <i>No data available.</i>                                      |
| <b>pH</b>                                     | <i>substance/mixture is non-soluble (in water)</i>             |
| <b>Kinematic Viscosity</b>                    | <i>No data available.</i>                                      |
| <b>Water solubility</b>                       | Negligible   |
| <b>Solubility- non-water</b>                  | <i>No data available.</i>                                      |
| <b>Partition coefficient: n-octanol/water</b> | <i>No data available.</i>                                      |
| <b>Vapour pressure</b>                        | <i>No data available.</i>                                      |

| <b>Evaporation rate</b>              | <i>No data available.</i> |
| <b>Percent volatile</b>              | 3.7 %                     |
| <b>Percent volatile</b>              | Negligible                |

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

### 10.2 Chemical stability

Stable.

### 10.3 Possibility of hazardous reactions

Hazardous polymerisation will not occur.

### 10.4 Conditions to avoid

Heat.

Heat is generated during cure. Do not cure a mass larger than 50 grams in a confined space to prevent a premature exothermic reaction with production of intense heat and smoke.

### 10.5 Incompatible materials

None known.

### 10.6 Hazardous decomposition products

| <u>Substance</u> | <u>Condition</u> |
|------------------|------------------|
| None known.      |                  |

Refer to section 5.2 for hazardous decomposition products during combustion.

## SECTION 11: Toxicological information

The information below may not agree with the material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 11 are based on UN GHS calculation rules and classifications derived from 3M assessments.

### 11.1. Information on hazard classes as defined in the retained CLP Regulation (EU) No 1272/2008, as amended for Great Britain.

#### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

##### Inhalation

Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. May cause additional health effects (see below).

##### Skin contact

Corrosive (skin burns): Signs/symptoms may include localised redness, swelling, itching, intense pain, blistering, ulceration, and tissue destruction. Allergic skin reaction (non-photo induced): Signs/symptoms may include redness, swelling, blistering, and itching.

##### Eye contact

Corrosive (eye burns): Signs/symptoms may include cloudy appearance of the cornea, chemical burns, severe pain, tearing, ulcerations, significantly impaired vision or complete loss of vision.

##### Ingestion

May be harmful if swallowed.

Gastrointestinal corrosion: Signs/symptoms may include severe mouth, throat and abdominal pain, nausea, vomiting, and diarrhea; blood in the faeces and/or vomitus may also be seen. May cause additional health effects (see below).

#### Additional Health Effects:

##### Single exposure may cause target organ effects:

Methemoglobinemia: Signs/symptoms may include headache, dizziness, nausea, difficulty breathing, and generalised weakness.

##### Reproductive/Developmental Toxicity:

Contains a chemical or chemicals which can cause birth defects or other reproductive harm.

##### Additional information:

Persons previously sensitised to amines may develop a cross-sensitisation reaction to certain other amines.

#### Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

#### Acute Toxicity

| Name                                     | Route     | Species | Value   |
|--|-----------|---------|---|
| Overall product                          | Dermal    |         | No data available; calculated ATE >5,000 mg/kg          |
| Overall product                          | Ingestion |         | No data available; calculated ATE >2,000 - =5,000 mg/kg |
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | Dermal    | Rabbit  | LD50 2,525 mg/kg  |
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | Ingestion | Rat     | LD50 2,850 mg/kg  |

| Nitric acid, calcium salt, tetrahydrate                   | Dermal                         | similar compounds      | LD50 > 2,000 mg/kg                       |
| toluene   | Dermal                         | Rat                    | LD50 12,000 mg/kg                        |
| toluene   | Inhalation-Vapour (4 hours)    | Rat                    | LC50 30 mg/l                             |
| toluene   | Ingestion                      | Rat                    | LD50 5,550 mg/kg                         |

ATE = acute toxicity estimate

**Skin Corrosion/Irritation**

| Name                                     | Species                | Value                     |
|--|------------------------|---------------------------|
| Overall product                          | In vitro data          | Corrosive                 |
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | Rabbit                 | Corrosive                 |
| Oxide glass chemicals                    | Professional judgement | No significant irritation |
| 1,2-Ethanediamine, phosphate             | Rabbit                 | No significant irritation |
| m-Xylene-.alpha.alpha'.-diamine          | Rat                    | Corrosive                 |
| Urea, N,N'-bis[3-(dimethylamino)propyl]- | Rabbit                 | No significant irritation |
| Nitric acid, calcium salt, tetrahydrate  | similar compounds      | No significant irritation |
| toluene                                  | Rabbit                 | Irritant                  |

**Serious Eye Damage/Irritation**

| Name                                     | Species                | Value                     |
|--|------------------------|---------------------------|
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | Rabbit                 | Corrosive                 |
| Oxide glass chemicals                    | Professional judgement | No significant irritation |
| 1,2-Ethanediamine, phosphate             | Rabbit                 | No significant irritation |
| m-Xylene-.alpha.alpha'.-diamine          | Rabbit                 | Corrosive                 |
| Urea, N,N'-bis[3-(dimethylamino)propyl]- | Rabbit                 | Corrosive                 |
| Nitric acid, calcium salt, tetrahydrate  | Rabbit                 | Corrosive                 |
| toluene                                  | Rabbit                 | Moderate irritant         |

**Skin Sensitisation**

| Name | Species | Value |
|------|---------|-------|
|------|---------|-------|

|  |                        |                |
|--|------------------------|----------------|
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | Professional judgement | Sensitising    |
| 1,2-Ethanediamine, phosphate             | similar compounds      | Sensitising    |
| m-Xylene-.alpha.alpha'.-diamine          | Guinea pig             | Sensitising    |
| Urea, N,N'-bis[3-(dimethylamino)propyl]- | Guinea pig             | Not classified |
| Nitric acid, calcium salt, tetrahydrate  | similar compounds      | Not classified |
| toluene                                  | Guinea pig             | Not classified |

### Respiratory Sensitisation

For the component/components, either no data is currently available or the data is not sufficient for classification.

### Germ Cell Mutagenicity

| Name                                     | Route    | Value  |
|--|----------|--|
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | In Vitro | Not mutagenic  |
| Oxide glass chemicals                    | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| 1,2-Ethanediamine, phosphate             | In Vitro | Not mutagenic  |
| 1,2-Ethanediamine, phosphate             | In vivo  | Not mutagenic  |
| m-Xylene-.alpha.alpha'.-diamine          | In Vitro | Not mutagenic  |
| m-Xylene-.alpha.alpha'.-diamine          | In vivo  | Not mutagenic  |
| Urea, N,N'-bis[3-(dimethylamino)propyl]- | In Vitro | Not mutagenic  |
| Urea, N,N'-bis[3-(dimethylamino)propyl]- | In vivo  | Not mutagenic  |
| Nitric acid, calcium salt, tetrahydrate  | In Vitro | Not mutagenic  |
| toluene                                  | In Vitro | Not mutagenic  |
| toluene                                  | In vivo  | Not mutagenic  |

### Carcinogenicity

| Name                  | Route      | Species                 | Value  |
|-----------------------|------------|-------------------------|--|
| Oxide glass chemicals | Inhalation | Multiple animal species | Some positive data exist, but the data are not sufficient for classification |
| toluene               | Dermal     | Mouse                   | Some positive data exist, but the data are not sufficient for classification |
| toluene               | Ingestion  | Rat                     | Some positive data exist, but the data are not sufficient for classification |
| toluene               | Inhalation | Mouse                   | Some positive data exist, but the data are not sufficient for classification |

### Reproductive Toxicity

#### Reproductive and/or Developmental Effects

| Name                                     | Route     | Value                                  | Species | Test result         | Exposure Duration          |
|--|-----------|--|---------|---------------------|----------------------------|
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | Ingestion | Not classified for female reproduction | Rat     | NOAEL 600 mg/kg/day | prematuring into lactation |
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | Ingestion | Not classified for male reproduction   | Rat     | NOAEL 600 mg/kg/day | 59 days                    |
| 3,3'-Oxybis(ethyleneoxy)bis(propylamine) | Ingestion | Not classified for development         | Rat     | NOAEL 600 mg/kg/day | prematuring into lactation |
| 1,2-Ethanediamine, phosphate             | Ingestion | Not classified for female reproduction | Rat     | NOAEL 150 mg/kg/day | prematuring into lactation |
| 1,2-Ethanediamine, phosphate             | Ingestion | Not classified for male reproduction   | Rat     | NOAEL 150           | 33 days                    |

**3M™ Scotch-Weld™ Epoxy Adhesive EC-3542 B/A FR Part A**

|  |            |  |                   | mg/kg/day             |                            |
|--|------------|--|-------------------|-----------------------|----------------------------|
| 1,2-Ethanediamine, phosphate             | Ingestion  | Not classified for development         | Rat               | NOAEL 150 mg/kg/day   | prematuring into lactation |
| m-Xylene-.alpha.alpha'.-diamine          | Ingestion  | Not classified for female reproduction | Rat               | NOAEL 450 mg/kg/day   | 1 generation               |

**Aspiration Hazard**

| Name    | Value             |
|---------|-------------------|
| toluene | Aspiration hazard |

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

**11.2. Information on other hazards**

This material does not contain any substances that are assessed to be an endocrine disruptor for human health.

**SECTION 12: Ecological information**

The information below may not agree with the material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 12 are based on UN GHS calculation rules and classifications derived from 3M assessments.

**12.1. Toxicity**

No product test data available.

**12.5. Results of the PBT and vPvB assessment**

This material does not contain any substances that are assessed to be a PBT or vPvB

**12.6. Other adverse effects**

This material does not contain any substances that are assessed to be an endocrine disruptor for environmental effects

**SECTION 13: Disposal considerations**

**13.1 Waste treatment methods**

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

The coding of a waste stream is based on the application of the product by the consumer. Since this is out of the control of 3M, no waste code(s) for products after use will be provided. Please refer to the European Waste Code (EWC - 2000/532/EC and amendments) to assign the correct waste code to your waste stream. Ensure national and/or regional regulations are complied with and always use a licensed waste contractor.

**EU waste code (product as sold)**

- 08 04 09\* Waste adhesives and sealants containing organic solvents or other dangerous substances
- 20 01 27\* Paint, inks, adhesives and resins containing dangerous substances

**SECTION 14: Transportation information**

Please contact the address or phone number listed on the first page of the SDS for additional information on the transport/shipment of the material by rail (RID) or inland waterways (ADN).

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Carcinogenicity

| <u>Ingredient</u> | <u>CAS Nbr</u> | <u>Classification</u>   | <u>Regulation</u>                           |
|-------------------|----------------|-------------------------|---|
| toluene           | 108-88-3       | Gr. 3: Not classifiable | International Agency for Research on Cancer |

#### Restrictions on the manufacture, placing on the market and use:

The following substance(s) contained in this product is/are subject to Annex XVII of regulation (EC) 1907/2006, as amended for GB, with regard to restrictions on the manufacture, placing on the market and use when present in certain dangerous conditions. Users of this product are required to comply with the restrictions placed upon it by the aforementioned provision.

| <u>Ingredient</u> | <u>CAS Nbr</u> |
|-------------------|----------------|
|-------------------|----------------|

toluene

108-88-3

Restriction status: listed in UK REACH Annex XVII

Restricted uses: See Annex XVII to Regulation (EC) No 1907/2006 as amended for Great Britain for Conditions of Restriction

#### Global inventory status

Contact 3M for more information. The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

#### COMAH Regulation, SI 2015/483

Seveso hazard categories, Annex 1, Part 1

None

Seveso named dangerous substances, Annex 1, Part 2

| Dangerous Substances | Identifier(s) | Qualifying quantity (tonnes) for the application of |                         |
|----------------------|---------------|---|-------------------------|
|                      |               | Lower-tier requirements                             | Upper-tier requirements |
| toluene              | 108-88-3      | 10  | 50                      |

#### Regulation (EU) No 649/2012, as amended for GB

No chemicals listed

#### 15.2. Chemical Safety Assessment

A chemical safety assessment has not been carried out for this substance/mixture in accordance with Regulation (EC) No 1907/2006, as amended for GB.

## SECTION 16: Other information

#### List of relevant H statements

|       |  |
|-------|--|
| H225  | Highly flammable liquid and vapour.                                |
| H290  | May be corrosive to metals.  |
| H302  | Harmful if swallowed.  |
| H304  | May be fatal if swallowed and enters airways.                      |
| H314  | Causes severe skin burns and eye damage.                           |
| H315  | Causes skin irritation.  |
| H317  | May cause an allergic skin reaction.                               |
| H318  | Causes serious eye damage.   |
| H332  | Harmful if inhaled.  |
| H336  | May cause drowsiness or dizziness.                                 |
| H361d | Suspected of damaging the unborn child.                            |
| H373  | May cause damage to organs through prolonged or repeated exposure. |
| H412  | Harmful to aquatic life with long lasting effects.                 |

#### Revision information:

GB Section 02: CLP Ingredient table information was modified.

GB Section 04: First Aid - Symptoms and Effects (GB CLP) information was modified.

Section 11: Target Organs - Repeated Table information was modified.

Section 12: Component ecotoxicity information information was modified.  
Section 12: Persistence and Degradability information information was modified.  
Section 12: Bioaccumulative potential information information was modified.  
Section 13: Standard Phrase Category Waste GHS information was modified.  
Section 3: Composition/ Information of ingredients table information was modified.  
Section 8: glove data value information was added.  
Section 8: glove data value information was modified.  
Section 8: Skin protection - protective clothing information information was modified.

**DISCLAIMER:** The information on this Safety Data Sheet is based on our experience and is correct to the best of our knowledge at the date of publication, but we do not accept any liability for any loss, damage or injury resulting from its use (except as required by law). The information may not be valid for any use not referred to in this Data Sheet or use of the product in combination with other materials. For these reasons, it is important that customers carry out their own test to satisfy themselves as to the suitability of the product for their own intended applications. In addition, this SDS is being provided to convey health and safety information. If you are the importer of record of this product into the European Union, you are responsible for all regulatory requirements, including, but not limited to, product registrations/notifications, substance volume tracking, and potential substance registration.

| <b>Revision date:</b>  | 14/12/2023 | <b>Supersedes date:</b> | 14/12/2023 |

This Safety Data Sheet has been prepared in accordance with the REACH Regulation (1907/2006), as amended for GB.

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

3M™ Scotch-Weld™ Epoxy Adhesive EC-3542 B/A FR Part B

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### Identified uses

Part B of a 2-part Epoxy Adhesive, Industrial use.

#### 1.3. Details of the supplier of the safety data sheet

**Address:** 3M United Kingdom PLC, 3M Centre, Cain Road, Bracknell, Berkshire, RG12 8HT.  
**Telephone:** +44 (0)1344 858 000  
**E Mail:** tox.uk@mmm.com  
**Website:** www.3M.com/uk

#### 1.4. Emergency telephone number

+44 (0)1344 858 000

### SECTION 2: Hazard identification

#### 2.1. Classification of the substance or mixture

The retained CLP Regulation (EU) No 1272/2008 as amended for Great Britain

The health and environmental classifications of this material have been derived using the calculation method, except in cases where test data are available or the physical form impacts classification. Classification(s) based on test data or physical form are noted below, if applicable.

##### CLASSIFICATION:

Skin Corrosion/Irritation, Category 2 - Skin Irrit. 2; H315  
Serious Eye Damage/Eye Irritation, Category 1 - Eye Dam. 1; H318  
Skin Sensitization, Category 1 - Skin Sens. 1; H317  
Germ Cell Mutagenicity, Category 2 - Muta. 2; H341  
Reproductive Toxicity, Category 1B - Repr. 1B; H360F  
Hazardous to the Aquatic Environment (Chronic), Category 2 - Aquatic Chronic 2; H411

For full text of H phrases, see Section 16.

**2.2. Label elements**

**The retained CLP Regulation (EU) No 1272/2008 as amended for Great Britain**

**SIGNAL WORD**

DANGER.

**Symbols**

GHS05 (Corrosion) |GHS07 (Exclamation mark) |GHS08 (Health Hazard) |GHS09 (Environment) |

**Pictograms**

| Ingredient                                    | CAS Nbr    | EC No.    | % by Wt |
|---|------------|-----------|---------|
| Epichlorhydrin - trimethylolpropane copolymer | 30499-70-8 |           | 20 - 40 |
| bis-[4-(2,3-epoxipropoxy)phenyl]propane       | 1675-54-3  | 216-823-5 | 20 - 35 |
| 1,2-Ethanediamine, phosphate                  | 14852-17-6 | 238-914-9 | 1 - 20  |

**HAZARD STATEMENTS:**

|       |  |
|-------|--|
| H315  | Causes skin irritation.                          |
| H318  | Causes serious eye damage.                       |
| H317  | May cause an allergic skin reaction.             |
| H341  | Suspected of causing genetic defects.            |
| H360F | May damage fertility.                            |
| H411  | Toxic to aquatic life with long lasting effects. |

**PRECAUTIONARY STATEMENTS**

**Prevention:**

|       |  |
|-------|--|
| P201  | Obtain special instructions before use.                                  |
| P273  | Avoid release to the environment.  |
| P280I | Wear protective gloves, eye/face protection, and respiratory protection. |

**Response:**

|                    |  |
|--------------------|--|
| P305 + P351 + P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P310               | Immediately call a POISON CENTRE or doctor/physician.  |
| P333 + P313        | If skin irritation or rash occurs: Get medical advice/attention.   |

**SUPPLEMENTAL INFORMATION:**

**Supplemental Precautionary Statements:**

Restricted to professional users.

**2.3. Other hazards**

Persons previously sensitised to amines may develop a cross-sensitisation reaction to certain other amines.

This material does not contain any substances that are assessed to be a PBT or vPvB

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Not applicable

#### 3.2. Mixtures

| Ingredient                              | Identifier(s)                             | Specific Concentration Limits                               |
|---|---|---|
| bis-[4-(2,3-epoxipropoxy)phenyl]propane | (CAS-No.) 1675-54-3<br>(EC-No.) 216-823-5 | (C ≥ 5%) Skin Irrit. 2, H315<br>(C ≥ 5%) Eye Irrit. 2, H319 |

For information on ingredient occupational exposure limits or PBT or vPvB status, see sections 8 and 12 of this SDS

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### Inhalation

Remove person to fresh air. If you feel unwell, get medical attention.

#### Skin contact

Immediately wash with soap and water. Remove contaminated clothing and wash before reuse. If signs/symptoms develop, get medical attention.

#### Eye contact

Immediately flush with large amounts of water for at least 15 minutes. Remove contact lenses if easy to do. Continue rinsing. Immediately get medical attention.

#### If swallowed

Rinse mouth. If you feel unwell, get medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

The most important symptoms and effects based on the GB CLP classification include:

Irritation to the skin (localized redness, swelling, itching, and dryness). Allergic skin reaction (redness, swelling, blistering, and itching). Serious damage to the eyes (corneal cloudiness, severe pain, tearing, ulcerations, and significantly impaired or loss of vision).

### 4.3. Indication of any immediate medical attention and special treatment required

Not applicable

## SECTION 5: Fire-fighting measures

### 5.1. Extinguishing media

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

### 5.2. Special hazards arising from the substance or mixture

None inherent in this product.

### Hazardous Decomposition or By-Products

| <u>Substance</u>  | <u>Condition</u>   |
|-------------------|--------------------|
| Aldehydes.        | During combustion. |
| Carbon monoxide   | During combustion. |
| Carbon dioxide.   | During combustion. |
| Hydrogen Chloride | During combustion. |

### 5.3. Advice for fire-fighters

Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation

to disperse or exhaust vapours, in accordance with good industrial hygiene practice. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

**6.2. Environmental precautions**

Avoid release to the environment. For larger spills, cover drains and build dykes to prevent entry into sewer systems or bodies of water.

**6.3. Methods and material for containment and cleaning up**

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Seal the container. Dispose of collected material as soon as possible.

**6.4. Reference to other sections**

Refer to Section 8 and Section 13 for more information

**SECTION 7: Handling and storage**

**7.1. Precautions for safe handling**

Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wash contaminated clothing before reuse. Use personal protective equipment (eg. gloves, respirators...) as required.

**7.2. Conditions for safe storage including any incompatibilities**

Store away from heat. Store away from amines.

**7.3. Specific end use(s)**

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

**SECTION 8: Exposure controls/personal protection**

**8.1 Control parameters**

**Occupational exposure limits**

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| <b>Ingredient</b>     | <b>CAS Nbr</b> | <b>Agency</b>              | <b>Limit type</b>   | <b>Additional comments</b> |
|-----------------------|----------------|----------------------------|---|----------------------------|
| toluene               | 108-88-3       | UK HSC                     | TWA: 191 mg/m <sup>3</sup> (50 ppm);<br>STEL: 384 mg/m <sup>3</sup> (100 ppm)   | SKIN                       |
| Titanium dioxide      | 13463-67-7     | UK HSC                     | TWA(respirable):4<br>mg/m <sup>3</sup> ;TWA(Inhalable):10<br>mg/m <sup>3</sup>  |                            |
| Oxide glass chemicals | 65997-17-3     | Manufacturer<br>determined | TWA(as non-fibrous,<br>respirable)(8 hours):3<br>mg/m <sup>3</sup> ;TWA(as non-fibrous,<br>inhalable fraction)(8 hours):10<br>mg/m <sup>3</sup> |                            |
| Silicon dioxide       | 92797-60-9     | UK HSC                     | TWA(as respirable dust):2.4<br>mg/m <sup>3</sup> ;TWA(as inhalable<br>dust):6 mg/m <sup>3</sup>   |                            |

UK HSC : UK Health and Safety Commission

TWA: Time-Weighted-Average  
STEL: Short Term Exposure Limit  
CEIL: Ceiling

**Biological limit values**

No biological limit values exist for any of the components listed in Section 3 of this safety data sheet.

**8.2. Exposure controls**

**8.2.1. Engineering controls**

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment.

**8.2.2. Personal protective equipment (PPE)**

**Eye/face protection**

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

- Full face shield.
- Indirect vented goggles.

*Applicable Norms/Standards*

Use eye/face protection conforming to EN 166

**Skin/hand protection**

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing. Note: Nitrile gloves may be worn over polymer laminate gloves to improve dexterity. Gloves made from the following material(s) are recommended:

| <b>Material</b>  | <b>Thickness (mm)</b> | <b>Breakthrough Time</b> |
|------------------|-----------------------|--------------------------|
| Polymer laminate | No data available     | No data available        |

*Applicable Norms/Standards*

Use gloves tested to EN 374

If this product is used in a manner that presents a higher potential for exposure (eg. spraying, high splash potential etc.), then use of protective coveralls may be necessary. Select and use body protection to prevent contact based on the results of an exposure assessment. The following protective clothing material(s) are recommended: Apron - polymer laminate

**Respiratory protection**

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

- Half facepiece or full facepiece air-purifying respirator suitable for organic vapours and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

*Applicable Norms/Standards*

Use a respirator conforming to EN 140 or EN 136: filter types A & P

**SECTION 9: Physical and chemical properties**

**9.1. Information on basic physical and chemical properties**

|   |  |
|---|--|
| <b>Physical state</b>                         | Liquid.  |
| <b>Colour</b>                                 | White  |
| <b>Odor</b>                                   | Slight Epoxy   |
| <b>Odour threshold</b>                        | <i>No data available.</i>                                      |
| <b>Melting point/freezing point</b>           | <i>Not applicable.</i>   |
| <b>Boiling point/boiling range</b>            | <i>No data available.</i>                                      |
| <b>Flammability (solid, gas)</b>              | Not applicable.  |
| <b>Flammable Limits(LEL)</b>                  | <i>Not applicable.</i>   |
| <b>Flammable Limits(UEL)</b>                  | <i>Not applicable.</i>   |
| <b>Flash point</b>                            | Flash point > 93 °C (200 °F) [ <i>Test Method:Closed Cup</i> ] |
| <b>Autoignition temperature</b>               | <i>No data available.</i>                                      |
| <b>Decomposition temperature</b>              | <i>No data available.</i>                                      |
| <b>pH</b>                                     | <i>substance/mixture is non-soluble (in water)</i>             |
| <b>Kinematic Viscosity</b>                    | <i>No data available.</i>                                      |
| <b>Water solubility</b>                       | Negligible   |
| <b>Solubility- non-water</b>                  | <i>No data available.</i>                                      |
| <b>Partition coefficient: n-octanol/water</b> | <i>No data available.</i>                                      |
| <b>Vapour pressure</b>                        | <i>No data available.</i>                                      |
| <b>Density</b>                                | 0.65 g/ml  |
| <b>Relative density</b>                       | 0.68 - 0.7 [ <i>Ref Std:WATER=1</i> ]                          |
| <b>Relative Vapour Density</b>                | <i>No data available.</i>                                      |

**9.2. Other information**

**9.2.2 Other safety characteristics**

|                                      |                           |
|--------------------------------------|---------------------------|
| <b>EU Volatile Organic Compounds</b> | <i>No data available.</i> |
| <b>Evaporation rate</b>              | <i>No data available.</i> |
| <b>Percent volatile</b>              | Negligible                |

**SECTION 10: Stability and reactivity**

**10.1 Reactivity**

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

**10.2 Chemical stability**

Stable.

**10.3 Possibility of hazardous reactions**

Hazardous polymerisation will not occur.

**10.4 Conditions to avoid**

Heat.  
Heat is generated during cure. Do not cure a mass larger than 50 grams in a confined space to prevent a premature exothermic reaction with production of intense heat and smoke.

**10.5 Incompatible materials**

Amines.

**10.6 Hazardous decomposition products**

| <u>Substance</u> | <u>Condition</u> |
|------------------|------------------|
| None known.      |                  |

Refer to section 5.2 for hazardous decomposition products during combustion.

## SECTION 11: Toxicological information

The information below may not agree with the material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 11 are based on UN GHS calculation rules and classifications derived from 3M assessments.

### 11.1. Information on hazard classes as defined in the retained CLP Regulation (EU) No 1272/2008, as amended for Great Britain.

#### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

##### Inhalation

Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. May cause additional health effects (see below).

##### Skin contact

Skin Irritation: Signs/symptoms may include localised redness, swelling, itching, dryness, cracking, blistering, and pain.  
Allergic skin reaction (non-photo induced): Signs/symptoms may include redness, swelling, blistering, and itching.

##### Eye contact

Corrosive (eye burns): Signs/symptoms may include cloudy appearance of the cornea, chemical burns, severe pain, tearing, ulcerations, significantly impaired vision or complete loss of vision.

##### Ingestion

Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea. May cause additional health effects (see below).

#### Additional Health Effects:

##### Reproductive/Developmental Toxicity:

Contains a chemical or chemicals which can cause birth defects or other reproductive harm.

##### Genotoxicity:

Genotoxicity and Mutagenicity: May interact with genetic material and possibly alter gene expression.

#### Additional information:

Persons previously sensitised to amines may develop a cross-sensitisation reaction to certain other amines.

#### Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

#### Acute Toxicity

| Name  | Route     | Species | Value  |
|---|-----------|---------|--|
| Overall product                               | Dermal    |         | No data available; calculated ATE >5,000 mg/kg |
| Overall product                               | Ingestion |         | No data available; calculated ATE >5,000 mg/kg |
| bis-[4-(2,3-epoxipropoxy)phenyl]propane       | Dermal    | Rat     | LD50 > 1,600 mg/kg                             |
| bis-[4-(2,3-epoxipropoxy)phenyl]propane       | Ingestion | Rat     | LD50 > 1,000 mg/kg                             |
| Epichlorhydrin - trimethylolpropane copolymer | Dermal    | Rat     | LD50 > 3,170 mg/kg                             |
| Epichlorhydrin - trimethylolpropane copolymer | Ingestion | Rat     | LD50 3,398 mg/kg                               |
| Oxide glass chemicals                         | Dermal    |         | LD50 estimated to be > 5,000 mg/kg             |

**3M™ Scotch-Weld™ Epoxy Adhesive EC-3542 B/A FR Part B**

|   |                                |                        |  |
|---|--------------------------------|------------------------|--|
| Oxide glass chemicals                                     | Ingestion                      |                        | LD50 estimated to be 2,000 - 5,000 mg/kg |
| 1,2-Ethanediamine, phosphate                              | Inhalation-Vapour              | Professional judgement | LC50 estimated to be > 50 mg/l           |
| 1,2-Ethanediamine, phosphate                              | Dermal                         | Rat                    | LD50 > 2,000 mg/kg                       |
| 1,2-Ethanediamine, phosphate                              | Ingestion                      | Rat                    | LD50 > 2,000 mg/kg                       |
| Silane, trimethoxyoctyl-, hydrolysis products with silica | Dermal                         |                        | LD50 estimated to be > 5,000 mg/kg       |
| Silane, trimethoxyoctyl-, hydrolysis products with silica | Ingestion                      | Rat                    | LD50 > 5,340 mg/kg                       |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane              | Dermal                         | Rabbit                 | LD50 4,000 mg/kg                         |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane              | Inhalation-Dust/Mist (4 hours) | Rat                    | LC50 > 5.3 mg/l                          |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane              | Ingestion                      | Rat                    | LD50 7,010 mg/kg                         |
| Titanium dioxide  | Dermal                         | Rabbit                 | LD50 > 10,000 mg/kg                      |
| Titanium dioxide  | Inhalation-Dust/Mist (4 hours) | Rat                    | LC50 > 6.82 mg/l                         |
| Titanium dioxide  | Ingestion                      | Rat                    | LD50 > 10,000 mg/kg                      |
| toluene   | Dermal                         | Rat                    | LD50 12,000 mg/kg                        |
| toluene   | Inhalation-Vapour (4 hours)    | Rat                    | LC50 30 mg/l                             |
| toluene   | Ingestion                      | Rat                    | LD50 5,550 mg/kg                         |

ATE = acute toxicity estimate

**Skin Corrosion/Irritation**

| Name  | Species                | Value                     |
|---|------------------------|---------------------------|
| bis-[4-(2,3-epoxypropoxy)phenyl]propane       | Rabbit                 | Mild irritant             |
| Epichlorhydrin - trimethylolpropane copolymer | In vitro data          | Irritant                  |
| Oxide glass chemicals                         | Professional judgement | No significant irritation |
| 1,2-Ethanediamine, phosphate                  | Rabbit                 | No significant irritation |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane  | Rabbit                 | Mild irritant             |
| Titanium dioxide                              | Rabbit                 | No significant irritation |
| toluene                                       | Rabbit                 | Irritant                  |

**Serious Eye Damage/Irritation**

| Name  | Species                | Value                     |
|---|------------------------|---------------------------|
| bis-[4-(2,3-epoxypropoxy)phenyl]propane       | Rabbit                 | Moderate irritant         |
| Epichlorhydrin - trimethylolpropane copolymer | Rabbit                 | Corrosive                 |
| Oxide glass chemicals                         | Professional judgement | No significant irritation |
| 1,2-Ethanediamine, phosphate                  | Rabbit                 | No significant irritation |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane  | Rabbit                 | Corrosive                 |
| Titanium dioxide                              | Rabbit                 | No significant irritation |
| toluene                                       | Rabbit                 | Moderate irritant         |

**Skin Sensitisation**

| Name  | Species          | Value       |
|---|------------------|-------------|
| bis-[4-(2,3-epoxypropoxy)phenyl]propane       | Human and animal | Sensitising |
| Epichlorhydrin - trimethylolpropane copolymer | similar          | Sensitising |

|  |                   |                |
|--|-------------------|----------------|
|  | compounds         |                |
| 1,2-Ethanediamine, phosphate                 | similar compounds | Sensitising    |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane | Guinea pig        | Not classified |
| Titanium dioxide                             | Human and animal  | Not classified |
| toluene                                      | Guinea pig        | Not classified |

### Respiratory Sensitisation

| Name                                    | Species | Value          |
|---|---------|----------------|
| bis-[4-(2,3-epoxypropoxy)phenyl]propane | Human   | Not classified |

### Germ Cell Mutagenicity

| Name  | Route    | Value  |
|---|----------|--|
| bis-[4-(2,3-epoxypropoxy)phenyl]propane       | In vivo  | Not mutagenic  |
| bis-[4-(2,3-epoxypropoxy)phenyl]propane       | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| Epichlorhydrin - trimethylolpropane copolymer | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| Epichlorhydrin - trimethylolpropane copolymer | In vivo  | Mutagenic  |
| Oxide glass chemicals                         | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| 1,2-Ethanediamine, phosphate                  | In Vitro | Not mutagenic  |
| 1,2-Ethanediamine, phosphate                  | In vivo  | Not mutagenic  |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane  | In vivo  | Not mutagenic  |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane  | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| Titanium dioxide                              | In Vitro | Not mutagenic  |
| Titanium dioxide                              | In vivo  | Not mutagenic  |
| toluene                                       | In Vitro | Not mutagenic  |
| toluene                                       | In vivo  | Not mutagenic  |

### Carcinogenicity

| Name   | Route      | Species                 | Value  |
|--|------------|-------------------------|--|
| bis-[4-(2,3-epoxypropoxy)phenyl]propane      | Dermal     | Mouse                   | Some positive data exist, but the data are not sufficient for classification |
| Oxide glass chemicals                        | Inhalation | Multiple animal species | Some positive data exist, but the data are not sufficient for classification |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane | Dermal     | Mouse                   | Not carcinogenic   |
| Titanium dioxide                             | Ingestion  | Multiple animal species | Not carcinogenic   |
| Titanium dioxide                             | Inhalation | Rat                     | Carcinogenic.  |
| toluene                                      | Dermal     | Mouse                   | Some positive data exist, but the data are not sufficient for classification |
| toluene                                      | Ingestion  | Rat                     | Some positive data exist, but the data are not sufficient for classification |
| toluene                                      | Inhalation | Mouse                   | Some positive data exist, but the data are not sufficient for classification |

### Reproductive Toxicity

#### Reproductive and/or Developmental Effects

| Name | Route | Value | Species | Test result | Exposure Duration |
|------|-------|-------|---------|-------------|-------------------|
|------|-------|-------|---------|-------------|-------------------|

**3M™ Scotch-Weld™ Epoxy Adhesive EC-3542 B/A FR Part B**

|   |            |  |        |                       |                          |
|---|------------|--|--------|-----------------------|--------------------------|
| bis-[4-(2,3-epoxipropoxy)phenyl]propane       | Ingestion  | Not classified for female reproduction | Rat    | NOAEL 750 mg/kg/day   | 2 generation             |
| bis-[4-(2,3-epoxipropoxy)phenyl]propane       | Ingestion  | Not classified for male reproduction   | Rat    | NOAEL 750 mg/kg/day   | 2 generation             |
| bis-[4-(2,3-epoxipropoxy)phenyl]propane       | Dermal     | Not classified for development         | Rabbit | NOAEL 300 mg/kg/day   | during organogenesis     |
| bis-[4-(2,3-epoxipropoxy)phenyl]propane       | Ingestion  | Not classified for development         | Rat    | NOAEL 750 mg/kg/day   | 2 generation             |
| Epichlorhydrin - trimethylolpropane copolymer | Ingestion  | Not classified for female reproduction | Rat    | NOAEL 100 mg/kg/day   | premating into lactation |
| Epichlorhydrin - trimethylolpropane copolymer | Ingestion  | Not classified for development         | Rat    | NOAEL 100 mg/kg/day   | premating into lactation |
| Epichlorhydrin - trimethylolpropane copolymer | Ingestion  | Toxic to male reproduction             | Rat    | NOAEL 100 mg/kg/day   | 14 days                  |
| 1,2-Ethanediamine, phosphate                  | Ingestion  | Not classified for female reproduction | Rat    | NOAEL 150 mg/kg/day   | premating into lactation |
| 1,2-Ethanediamine, phosphate                  | Ingestion  | Not classified for male reproduction   | Rat    | NOAEL 150 mg/kg/day   | 33 days                  |
| 1,2-Ethanediamine, phosphate                  | Ingestion  | Not classified for development         | Rat    | NOAEL 150 mg/kg/day   | premating into lactation |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane  | Ingestion  | Not classified for female reproduction | Rat    | NOAEL 1,000 mg/kg/day | 1 generation             |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane  | Ingestion  | Not classified for male reproduction   | Rat    | NOAEL 1,000 mg/kg/day | 1 generation             |
| [3-(2,3-epoxypropoxy)propyl]trimethoxysilane  | Ingestion  | Not classified for development         | Rat    | NOAEL 3,000 mg/kg/day | during organogenesis     |
| toluene                                       | Inhalation | Not classified for female reproduction | Human  | NOAEL Not available   | occupational exposure    |
| toluene                                       | Inhalation | Not classified for male reproduction   | Rat    | NOAEL 2.3 mg/l        | 1 generation             |
| toluene                                       | Ingestion  | Toxic to development                   | Rat    | LOAEL 520 mg/kg/day   | during gestation         |
| toluene                                       | Inhalation | Toxic to development                   | Human  | NOAEL Not available   | poisoning and/or abuse   |

**Target Organ(s)**
**Specific Target Organ Toxicity - single exposure**

| Name  | Route      | Target Organ(s)                   | Value  | Species                | Test result         | Exposure Duration      |
|---|------------|-----------------------------------|--|------------------------|---------------------|------------------------|
| Epichlorhydrin - trimethylolpropane copolymer | Inhalation | respiratory irritation            | Some positive data exist, but the data are not sufficient for classification | similar health hazards | NOAEL Not available |                        |
| toluene                                       | Inhalation | central nervous system depression | May cause drowsiness or dizziness  | Human                  | NOAEL Not available |                        |
| toluene                                       | Inhalation | respiratory irritation            | Some positive data exist, but the data are not sufficient for classification | Human                  | NOAEL Not available |                        |
| toluene                                       | Inhalation | immune system                     | Not classified   | Mouse                  | NOAEL 0.004 mg/l    | 3 hours                |
| toluene                                       | Ingestion  | central nervous system depression | May cause drowsiness or dizziness  | Human                  | NOAEL Not available | poisoning and/or abuse |

**Specific Target Organ Toxicity - repeated exposure**

| Name                                    | Route     | Target Organ(s) | Value          | Species | Test result           | Exposure Duration |
|---|-----------|-----------------|----------------|---------|-----------------------|-------------------|
| bis-[4-(2,3-epoxipropoxy)phenyl]propane | Dermal    | liver           | Not classified | Rat     | NOAEL 1,000 mg/kg/day | 2 years           |
| bis-[4-(2,3-epoxipropoxy)phenyl]propane | Dermal    | nervous system  | Not classified | Rat     | NOAEL 1,000 mg/kg/day | 13 weeks          |
| bis-[4-(2,3-                            | Ingestion | auditory system | Not classified | Rat     | NOAEL                 | 28 days           |

**Aspiration Hazard**

| Name    | Value             |
|---------|-------------------|
| toluene | Aspiration hazard |

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

**11.2. Information on other hazards**

This material does not contain any substances that are assessed to be an endocrine disruptor for human health.

**SECTION 12: Ecological information**

The information below may not agree with the material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 12 are based on UN GHS calculation rules and classifications derived from 3M assessments.

**12.1. Toxicity**

No product test data available.

| Material                                      | CAS #      | Organism         | Type               | Exposure | Test endpoint | Test result  |
|---|------------|------------------|--------------------|----------|---------------|--------------|
| Epichlorhydrin - trimethylolpropane copolymer | 30499-70-8 | Bacteria         | Experimental       | 18 hours | EC50          | >10,000 mg/l |
| Epichlorhydrin - trimethylolpropane copolymer | 30499-70-8 | Common Carp      | Experimental       | 96 hours | LC50          | 75 mg/l      |
| Epichlorhydrin - trimethylolpropane copolymer | 30499-70-8 | Green algae      | Experimental       | 72 hours | EC50          | 9 mg/l       |
| Epichlorhydrin - trimethylolpropane copolymer | 30499-70-8 | Water flea       | Experimental       | 48 hours | EC50          | 3.7 mg/l     |
| Epichlorhydrin - trimethylolpropane copolymer | 30499-70-8 | Green algae      | Experimental       | 72 hours | NOEC          | 2.5 mg/l     |
| Oxide glass chemicals                         | 65997-17-3 | Green algae      | Experimental       | 72 hours | EC50          | >1,000 mg/l  |
| Oxide glass chemicals                         | 65997-17-3 | Water flea       | Experimental       | 72 hours | EC50          | >1,000 mg/l  |
| Oxide glass chemicals                         | 65997-17-3 | Zebra Fish       | Experimental       | 96 hours | LC50          | >1,000 mg/l  |
| Oxide glass chemicals                         | 65997-17-3 | Green algae      | Experimental       | 72 hours | NOEC          | >=1,000 mg/l |
| bis-[4-(2,3-epoxipropoxy)phenyl]propane       | 1675-54-3  | Activated sludge | Analogous Compound | 3 hours  | IC50          | >100 mg/l    |

**12.5. Results of the PBT and vPvB assessment**

This material does not contain any substances that are assessed to be a PBT or vPvB

**12.6. Other adverse effects**

This material does not contain any substances that are assessed to be an endocrine disruptor for environmental effects

**SECTION 13: Disposal considerations****13.1 Waste treatment methods**

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

The coding of a waste stream is based on the application of the product by the consumer. Since this is out of the control of 3M, no waste code(s) for products after use will be provided. Please refer to the European Waste Code (EWC - 2000/532/EC and amendments) to assign the correct waste code to your waste stream. Ensure national and/or regional regulations are complied with and always use a licensed waste contractor.

**EU waste code (product as sold)**

08 04 09\* Waste adhesives and sealants containing organic solvents or other dangerous substances  
20 01 27\* Paint, inks, adhesives and resins containing dangerous substances

**Restrictions on the manufacture, placing on the market and use:**

The following substance(s) contained in this product is/are subject to Annex XVII of regulation (EC) 1907/2006, as amended for GB, with regard to restrictions on the manufacture, placing on the market and use when present in certain dangerous conditions. Users of this product are required to comply with the restrictions placed upon it by the aforementioned provision.

| <u>Ingredient</u>                       | <u>CAS Nbr</u> |
|---|----------------|
| bis-[4-(2,3-epoxipropoxy)phenyl]propane | 1675-54-3      |
| toluene                                 | 108-88-3       |

Restriction status: listed in UK REACH Annex XVII

Restricted uses: See Annex XVII to Regulation (EC) No 1907/2006 as amended for Great Britain for Conditions of Restriction

**Global inventory status**

Contact 3M for more information. The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

**COMAH Regulation, SI 2015/483**
